FREDERICTON, N. B., July 30.ceedings. Fredericton today had the honor and the pleasure of welcoming the repreentative in Canada of Our Graciou Mayor Crocket and the civic corpora ereign, King Edward, in the person of Lord Minto, Governor General of Canalis, accompanied by Countess of Minto, their two daughters and

staff. The weather is delightfully cool, clear and refreshing, with an overcast sky. A shower in the early remoon laid the dust and freshen trees, grass and flowers.

The city was early astir and activ-ty was displayed on every hand, get-ting out decorations and making pre-parations for the greeting which all were desirous of extending to Their. Excellencies. Notwithstanding that every person felt that it was scarcely to make elaborate or expensive displays, as the visit of the viceregal party was to be so short a one. the city quickly took on a holiday ap-

Large numbers of people from outside town arrived all the forenoon to side town arrived all the forencon to witness the proceedings and join in the general acclaim to the Governor General and party. Among the arri-vals was the steamer Bismarck from the Y. M. C. A. boys' camp at Grand Lake with sixty boys. There are a large number of American courists in the stin and there eviden the liveling the city and they evince the interest in the goings on, and express lively satisfaction at the spontaneous outburst of loyalty to our constitu They are particularly sed with the many United flags displayed beside the States Union Jack, and especially noticed that on the facade of the City Hall. Long before the hour announced for

the arrival of the special train bear-ing the vice-regal party, crowds of people began to assemble at the C. P. R. station. On the platform where Their Excellencies would alight, a carpet was laid and a handsomely derated arch erected. The square on the lower side of the station was en closed by tri-colored ropes, and only those who were to receive and escort illis Excellency, and the guard of thonor, were admitted within the en-

It is difficult impossible, to express to you the many edits which my official position makes upon my time and prevents me from disposing of my time just as I would sometimes like. The day before he left Winnipes Mr. Tupper the told by the premier that he was himself able to get as many hands as he needed. He would perhaps require fifteen altogether. The grain grop of the province will be between 60,000, 000 and 65.000.000 bushels. This includes wheat, oats, barley, etc.

Last year the crop was short becau of wet weather; but that very fact enabled the farmers to do much more fall plowing than usual. In May this year a crop of 25,000,000 bushels was redicted, but so extremely favorable vere all the weather conditions that on the latest reports from all parts of the province, showing the grain ripenin in perfect condition, beyond the fear of frost, it is regarded as a certainty that the yield will be not less than 60.000.000 bushels. But the farmers who worked so ef-
