Success Will Bring Fall of Gorizia and Open AUTO PARTY HAD Road to Trieste—Fierce Fighting on Cadore Frontier-Italians Drive Enemy from Important Branch of Alpine Communications.

Udine, Italy, Aug. 15 .- General Cadorna, the Italian commander-inchief, has virtually completed preparations for a new general attack on the Austrians along the Isonzo river, according to information received from the front. These operations are intended to result in the occu-pation of the Carzo Plateau which it is expected would lead to the early fall of Gorizia, leaving the road open for the march to Trieste. The Italian general staff is said to be hopeful that this campaign may be successfully completed early in September.

Rome, Aug. 14 .- The following official statement was issued tonight at the headquarters of the Italian general U. S. MARINES IN HAYTI the headquarters of the Italian general

"The struggle beyond the Cadore frontier becomes more intense. In the zone of Monte Piano the enemy i force, backed by numerous artillery attempted yesterday to counter-attacl our positions, from which he wa thrown the day before. After a hot fight he was repulsed with serious lo

cations west of Forcella Cengsa.

"On the Isonzo a destructive artillery fire was begun on the works defending the Plezzo Basin. An enemy battery, located in a cavern above Svinjak and cleverly concealed, was struck fairly yesterday. On the Carzo Plateau during the night of August 13, the enemy set off a number of rockets above our position but made no further attacks. A group of our artillery continued a methodical destruction of the enemy's trenches, some of which were demolished. Their defenders were put to flight, most of them being struck by shrapnel and rifie fire, which was directed against them.

"Enemy aeroplanes in the past few days frequently have flown over the Isonzo region but always have been driven back by the effective fire of our anti-aeroplane batteries."
