From Dr. W. H. Wright, L.R.C.P.I., L.M., M.R.C.S.E., L.S.A.I., Medical Officer of Health, London, England:

"Our artificial mode of life constantly causes such changes to take place in the quality of the blood, that it frequently becomes impure, and we fall an easy prey to infectious diseases and blood disorders of all kinds. I strongly advocate keeping the system cool and the blood pure, and I know of no better remedy than your Abbey's Effervescent Salt."

### gle Miller, Annie Harper, Franklin Nickerson, Nellie Watters. Alice Mand and Georgia E for St John. According to Dr. Harlanson the safest and best treatment is to use after each meal a tablet, composed of Diastres, Aseptic Pepsin, a little Nax, Golden Seal and fruit acids

These tablets can now be found at all drug stores under the name of Stuart's Dyseppia Tablets, and, not being a patent medicine, can be used with perfect

Speakers Wanted.

Ottawa, April 11—The campaign in Brockvile is getting hot. There is a demand being made for speakers of both sider. For the Liberals Hop. Clifford Sifton, Hor. Mr. Paterson and Hor. D. C. Frazer with others have been espectially asked and have promised to take a hand in the fight.

Grip Develops Into President.

Mr. Costigan may second it.

Ottawa, April 12—Before the orders of the day were called in the house Sir Charles Tupper arose and congravulated the premier on the announcement that the government proposed to take up the Pacific cable scheme and carry it through to a successful conclusion. He said he was satisfied that the calle would not be an encumbrance to the country but would soon prove a source of revenue.

Mr. Costigan may second it.

Ottawa, April 12—Before the orders of the day were called in the house Sir Charles Tupper arose and congravulated the premier on the announcement that the government proposed to take up the said he was satisfied that the calle would not be an encumbrance to the country but would soon prove a source of revenue.

OTTAWA, April II.—The debate on the address was resumed today by Mr. MacDonald, of Kings, P. E; I. He seemed very inconsistent, for after claiming, that the government had retained the national policy, he informed the house that he had doubts of the prosperity of Canada, and based his opinion on the conditions, prevailing in his own province. Had it not been for the national policy there would have been no factories in the country. He devoted considerable time to scoring the government for its course with respect to prohibition. His constituency gave a large vote for prohibition, and as it behoves the tactual politician he said divers things to show his indignation at the acts of the single form. Mr. MacDonald, of Huron, followed his namesake from the effete east. He held that the plebiscite vote did not justify the enactment of prohibitory legil lation, and contended such legis lation, if now enacted before the country was ripe for it, would do a grievous injury to the cause of temperance.

Mr. MacDouald denied that the premier was inconsistent in his declaration which there had been subpro-American, quoting a long lest of articles on which there had been subpro-American, quoting a long lest of articles on which there had been sub-

Ostarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloated sensation after eating, accompanied sometimes with sour or watery risings, a formation of gases, causing pressure on the lungs and heart and difficult breathing; headache, fickle appetite, nervousness and a general played out and languid feeling.

There is often a foul taste in the moute, coated tongue, and if the interior of stomach could be seen it would show a slimy, inflamed conditior.

The cure for this common and obstinate disease is found in a treatment which causes the food to be readily and thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach.

To secure a prompt and healthy digesting is the one necessary thing to do, and when normal digestion is secured the catarrhas condition will have disappeared for the country was riper to the catarrhas condition will have disappeared. Why MacDousl is denied that the preferencial tariff was proc.—American, quoting a long list of articles on which there had been any liner years taken a stome though Sir wilfrid had in former years taken a long testing to do a grievous injury to the how that the preferencial tariff was proc.—American, quoting a long list of articles on which there had been small a reductions and which we buy stantial reductions and the general teriff was proc.—American, quoting a long list of articles on which there had been articles on which there had been stant the premie

He quoted items of increase for the purpose of showing that it was necessity and not recklessness that had caused them. In this necessity he saw justification. Mr. MacDonald challenged any one to produce any authorized statement by any leader of the Liberal party promising free trade as it is in England. Later on Mr. MacDonald announced that the question of transportation and the tariff would be great issues an this country for the future. In this connection he deal: at length upon the benefits accruing from the system of cell storage the government had inaugurated.

of revenue.

Hor. Mr. Laurier expressed his gratitude at Sir Charles' remarks. He hoped the leader of the opposition would act in the future as he did in this case when the government brought down equally good proposals.

Dr. Montague asked in connection with last year's application in S. Q. F.

for incorporation whether the promis

connection with the settlement the premier had sent money to the peor is of Manitoba. He challenged the premier to answer this allegation, but Sir Wilfrid paid no attention to him.
