The work has been done by the very best workmen and has been performed in such a manner that it will remain staunch and strong for many years. The lump sum of the con-

T \$28,000 and the warehouse cost 2 \$28,000. The contract was awarded cssrs. M. & N. Connolly and was ter, December, 1898. The work was sud-breed in March, 1899. Mr. G. The work of dredging and placing of cribs was steadily carried on and the structure grew steadily as the dredging and the building of the wharves progressed and railway tracks were moved inland by

the government.

The large wharf has been completed and the tracks on it have been laid for the past two months. About two months ago the work of putting up the great warehouse was commenced and is now finished. The result is one of the finest ware-

houses in the province.

The wharf is 558 feet long with a frontage of 149 feet. On it are four tracks, two running through the centre of the ware-house and a track on the western and castern side of the warehouse. The warehouse is of an enormous size, it being 518 feet long and 118 wide, covering about an

The foundations of this fine structure consist of 96 concrete piers which all rest on rock. All round the building a concrete retaining wall is built between the piers. The finished appearance and correct alignment of this foundation has been the subject of much favorable comment and was an interesting sight during to 1890.

CAN HE BE FAITHFUL IN POLITICS

Daniel Stands Before All Ages, the Specimen of a Thorough Though Godly Politician-Man Can Best Serve His Fellowmen by Being Faithful to the

Washington, Nov. 4.—This discourse of Dr. Talmage is appropriate for all seasons, but especially in these times of great political agitation. The text is, Daniel vi, 16, with the text is programmed and the company of "Then the king commanded, and they brought Daniel and cast him into the den of lions." Darius was king of Babylon, and

him prime minister, or secretary of state. But no man could gain such state. But no man could gain such a high position without exciting the envy and jealousy of the people. The were demagogues in Babylon who were so appreciative of their own abilities that they were affronted at the elevation of this young man. Old Babylon was airaid of young Babylon. The taller the cedar the more apt it is to be riven of the lightning. These demagogues asked the king to make a decree that anybody that made a petition to any anybody that made a petition to any one except the king during a period

Now you are in some department successful, and your success chills some one. Those men who used to sympathize with you stand along the street, and they scowl at you from under the rim of their hats. You have more money or more influence than they have, and you ought to be scowled at from under the rim of their hats. You catch a word or two as you pass by them. "Stuck up," says one. Got it dishonestly," "Will burst soon," says a third. Every stone in your new house is laid have a thousand irons in the fire, you on their hearts. Your horses' hoofs have a thousand more opportunities went over their nerves Every item of your success has been to them an item of discomfiture and despair. Just as soon as in any respect you rise above your fellows, if you are more virtuous, if you are more wise, if you are more influential, you cast

there are those to sympathize with ou, but now that you are becoming a master of your particular occupation or profession, how is it now, young lawyers, young doctors, young artists, young farmers-how is it now? The greatest crime that you can commit is the crime of success. Again, my subject impresses me with the value of decision of character in any department. Daniel knew that if he continued his adherence to the religion of the Lord he would be

hurled to the lions; but, having set his compass well, he sailed right on. For the lack of that element of decision of character so eminent in Daniel many men are ruined for this world and ruined for the world to come. A great many at 40 years of age are not settled in any respect, the young man Daniel was so much a favorite with him that he made because they have not been able to make up their minds. Perhaps they will go east; perhaps they will not; perhaps they will go north; perhaps they may

go south; perhaps they may go south; perhaps they will not; perhaps they may make that investment in real estate or in railroads; perhaps they will not. They are like a steamer that should go out of New York harbor, starting for Glasgow, and the next day should change for Havre de Grace, and the next for Charleston, and the next for Boston, and the next for Liverpool. These and the next for Liverpool. These men on the sea of life everlastingly tacking ship and making no head-way! Or they are like a man who starts to build a house in the Corinthian style and changes it to Doric and then completes it in the Ionic, the curse of all styles of architecture. one except the king during a period of 30 days should be put to death. King Darius, not suspecting any foul play, makes that decree. The demagogues have accomplished all they want, because they know that no one can keep Daniel from sending petitions before God for 30 days.

then? I learn also from my subject that

> worldly business. This is a most appropriate thought at this season of the year, when so many men are starting out in new enterprises. Daniel had enough work to do to occupy six men. All the affairs of state were in his hands; questions of finance, questions of war, of peace; all intertlement or adjustment. He must have had a correspondence vast beyond all computation. There was not a man in all the earth who had more to do than Daniel, the secretary of state, and yet we find him three times a day bowing before God in prayer. There are men in our day who have not a hundredth part of Daniel's engagements who say they are too busy to be religious. They have an idea somehow that religion will spoil their worldly occupation, that it will trip the accountant's pen or dull the carpenter's saw or confuse the lawyer's brief or disarrange religion is impertinent. They would like to have it very well seated beside them in church on the Sabbath, to find the place in the psalmbook or to nudge them awake when they get sleepy under the didactic discourse, or they would like to leave it in the pew on Sabbath evening as they go night, religion; I'll be back next Sunday!" But to have religion go right along by them all through life, to have religion looking over their shoulder when they are making a bargain, to have religion take up a bag of dishonest gold and shake it and say, "Where did you get that?" They think that is an impertinent religion. They would like to have a religion to help them when they are sick, and when the shadow of death comes over them they would like to have religion as a sort of nightkey en, but religion under other circumstances they take to be impertinence. Now, my friends, religion never robbed a man of a dollar. Other things being equal, a mason will build a better wall, a cabinet maker will make a better chair, a plumber will make a better pipe, a lawyer will make a better plea, a merchant will sell a better bill of goods. I say, other things being equal. Of course wh n religion gives a man a new heart, it does not propose to give him a new head or to intellectualize him or to change a man's condition when his ordinary state is an over-throw of the philosophical theory but the more letters you have to write, the more burdens you have to carry, the more miles you have to travel, the more burdens you have to lift, the more engagements you have to meet, the more disputes you have to settle, the more opportunity have of being a Christian. If

"Thy don't you like weighing down upon his soul, and yet three times a day worshiping the God of heaven.

Again I learn from this subject that a man may take religion into his politics. Daniel had all the affairs of state on hand, yet a servant of God. He could not have kept his elevated position unless he had been a thorough politician, and yet all the thrusts of officials and all the danger of disgrace did not make him yield one io a of his high toned religious prin iples. He stood before that age, he stands before all ages, a specinen of a godly politician. So there have been in our day and in the days of our fathers men as eminent in the service of God as they have teen eminent in the service of the state. Such was Benjamin F. Butler, attorney general of New York in the time of your fathers. Such was John McI can of the supreme court of the United States. Such was George Eriggs of Massachusetts. Such was Theodore Frelinghuysen of New Jer-sey — men faithful to the state, at the same time faithful to God. It is absurd to expe.t that men who have been immersed in political wickedness for 30 or 40 years shall come to reformation, and our hope is in young men who are coming up, that they have patriotic principle and Christian principle side by s de when they come to the ballot box and cast ther first vote and that they swear a legiance to the government of heaven as we'l as to the govern-ment of the United States. We would have Bunker Hill mean loss to them than Calvary, and Lexington These mean less to them than Beth'ehem, but because there are bad men around the ballot box is no reason around the ballot box is no reason why Christ'an mgn 'should retreat from the arena. The last time you orght to give up your child or forsale your child is when it is surrounded by a company of Choctaws, and the last time to surrender the ballot box is when it is surrounded by impurity and dishonesty and all sorts of wickedness.

and then completes it in the Ionic, the curse of all styles of architecture. Young man, start right and keep on. Have decision of character. Character is like the goldfinch of Tonquin. It is magnificent while standing firm, but loses all its beauty in flight. How much decision of character in order that these young men may be Christians! Their old associates make sarcastic flings at them. They go on excursions, and they do not invite them. They proph sy that he will give out. They wonder if he is not getting wings. As he passes they grimace and wink and chuckle and say, "There goes a saint." O young man, have decision of character! You can afford in this matter of religion to be laughed at. What do you care for the scoffs of these men, who are affronted because you will not go to ruin with them? When the grave cracks open under their feet, and grim messengers push them into it.

You have had trial a ter trial, m's ortune after misfort-une, lion after lion, and yet they have ne er hurt you if you put your trust in God, and they never will hurt you. They did not hurt Daniel, and they cannot hurt you. The Pers'ans used o think that spring rain falling into seaste'ls would turn into pearls and sorrow turn into procious rems when they drop into God's bottle. You need by afraid of nothing, putting your trust in God. Even death, that monster lion whose den is t'e world's sepulcher, and who puts his paw down amid thousands of millions of the dead, cannot affright you. When n olden times a man was to get the honors of knighthcod, he was compel'ed to go fully armed the night be-fore among the tom's of the dead, carrying a sort of spear, and then when the day broke he would come forth, and, amid the sound of cornet and great parade, he would get the honors of kni hthood. And so it will te with the Christian in the night be-ore heaven, as, fully armed with spear and helmet of salvation, he will wait and watch through the darkness until the morning dawns, and then he will take the honors of heaven amid that great throng with

Snake charmers has its pleasures, but snake killing has its dangers, says the Paris Daily Messenger. Jean Serpent—what an appropriate name—is a mighty Nimrod of snakes. It is said that during his many hunts he has accounted for 22,000 of them. Whether this be true or false, it is reported from Clerment-Ferrand that Jean has just returned from the chase, bringing with him the bodies of 400 snakes caught at Saint German-Lembron, and sixty others kill-ed in eight days at Chades.

A New Advertising Dodge. A clever advertising bodge has been devised by one of the English yellow jo rnals. A number of agents have been dis at hed to different parts of the kingdom equipped with vouchers, and with instructions to turn them over to the first person who asks for one. When remitted to the publishers they are exchangeable for a \$50 note. The idea is to get everybody asking everybody else if they have one.
