The general impression is that the case will go to the jury not later than tomor-row and probably this evening, just what line of defense Parks' lawyers will adopt is a matter of conjecture but judging from the questions asked of the talesmen by Mr. Osborne, it is not likely that Parks will go on the stand as a witness in his own behalf and the defense may go to the jury without producing any witnesses. Mr. Osborne, it is not likely that Parks will go on the stand as a witness in his own behalf and the defense may go to the jury without producing any witnesses. Damaging Evidence,

At yesterday's session some damaging evidence against the prisoner was given. David Frazee, general superintendent, employed by the Tiffany studios, testified that he accompanied Louis Schmitt, tre urer of the Tiffany corporation, on visit to Parks in his own home. Schmitt asked Parks, the witness said, why the visit to Parks in his own home. Schmitt asked Parks, the witness said, why the "fine" of \$500 was imposed and Parks re-plied: "Now you're fined \$500 and you are getting off light; it ought to be \$1,000. I am not in this business for my health and you're getting off easy. Other firms have done business with me and if you

"That's about it," said Parks, "but it is for 'initiation,' that sounds better." "Does this money go to the labor union?" asked Schmitt. "It goes to Sam Parks," was the reply made by the accused, according to the witness. Lowell, Mass., Oct. 29.—The accidental poisoning of eleven immates at the State Hospital at Tewksbury with Belladonna some time during Tuesday night has been made the subject of a searching investi-gation by the state board of chanity repre-sented by Dr. Colcord, as well as by the homeistic authorities themalism.

gation by the state board of dialative repre-sented by Dr. Colcord, as well as by the hospital authorities themselves. Walter Fitzgerald, aged seventy-six. an inmate, admitted from Boston, died to-day, but the hospital authorities assert that his dealth was due to myocarditis, and positively deny that he was one of those who received the poison. The poison cases were reported tonight as decidedly favorable. Tonight, however, Dr. Nichols author-ized the Associated Press to make a statement in part as follows:----"In some manner, not yet determined, eleven patients of the State Hospital at Tewksbury were poisoned by Belladonna during the night of Oct. 27. The men re-ceived prompt medical aid and no fatali-ties resulted from the poison. The stal-ment published today to the effect that one of the men poisoned died of the pois-oning is untrue. An immate, Walter Fitz-gerald, died today from myocarditis. He was not one of those who received the Belladonna. He had been a patient for some time. The eleven men are doing some time. The eleven men are doing well and tonight their condition indicates that they are well on the road to re-

covery. "The developments will be made public at the proper time."
