fragettes Storm King and Queen With Petitions From Box at the Opera—American Amazon Arrested After a Scrimmage With Detectives

London, Dec. 13.—Mrs. Emmeline Pankhurst, the suffragette leader, who had returned from Paris, where she had visited her daughter, Miss Christa Pankhurst, was arrested on Monday at the train left Dover. The police officers, who had made no attempt to arrest her, were surprised to find her at the train left Dover. The police officers, who had made no attempt to arrest her, were surprised to find her at the train left Dover.

fragettes Appealed to King at the Opera

London, Dec. 13.—While King George and Queen Mary were attending the opera at Covent Garden this evening, a party of suffragettes obtained possession of a box opposite the royal box. When the curtain came down on the first act they stood up and waved a banner on which was written: "Women are being tortured in your Majesty's prisons."

the Capture American Amazon

London, Dec. 14.—The American suffragette, Miss Zelle Emerson, of Jackson, Michigan, was the central figure in a series of scenes which began in the police and suffragettes and supporters in the Bow district. Emerson and three men were arrested.

AWASKA AND CTORIA FARMERS FEAR BAN ON POTATOES

Michael, M. P., Taking Active Interest in Washington Conference

London, N. B., Dec. 13.—(Special) Farmers of the counties of Vic and Madawaska are taking a great interest in the question of proposed importation of New Zealand potatoes into the United States.

TO LET—For the summer months, a comfortably furnished house in central part of the city. Apply Box "97," Telegraph Office. 842-47.

FOR SALE

FARM FOR SALE—One mile from C. P. R. station, 110 acres, about half under cultivation, balance good wood and timber, in good condition, well supplied with water, portion later, wood and garden for cash. Owner leaving larger farm. Apply to Valley, care of Telegraph. 47-17.

FINE HARMOUTH HOUSE BURNED

Yarmouth, N. S., Dec. 13.—At twenty minutes to three this morning, an alarm of fire was blown in. The alarm was not working right and there was considerable confusion at first as to the location of the fire. It was soon found to be the beautiful residence of John W. Bates in Vancouver street, known as Crestwood. The fire had complete possession of the upper floors, and those first on the scene had great difficulty in saving the people of the house. As it was they were got out in their night clothes and did not save any clothing.

SALISBURY NEWS

Salisbury, Dec. 14.—Mrs. Jonathan Crandall and son, master Ned, of Hampton (N. B.), were in Salisbury on Saturday spending the day with friends. J. E. J. Patterson, C.E., and Mrs. Patterson, are receiving congratulations on the birth of a son.

Applies at Home Also (Youth's Companion)

The attorney for the gas company was making a popular address. "Think of the good the gas company has done," he cried. "If I were permitted a pun, I would say, in the words of the immortal poet, 'Honor the Light Brigade.'"

Little silk vests are seen in the new cotton blouse.

LOST ALL IN THE WEST, WILL YOU AGAIN HERE

Young Farmer Looks with Greater Hope on Farming in New Brunswick—Board of Trade's Assistance.

Saturday, Dec. 13.

After a disastrous experience in one of the western Canadian provinces, a young English farmer has arrived in St. John with the intention of making his home and seeking his fortune in this province.

His experience in the west was in wheat raising and, like most of the western farmers, he specialized in the one crop. This year his crop was a failure and he not only lost his year's work but received a setback which wiped out his savings.

When he saw how things had gone he took his wife and a family of two small children back to his home in England and then promptly called for New Brunswick. He applied at the Board of Trade rooms for work yesterday and efforts are being made to provide him with a new start.

The Imperial Home Reunion Association, a branch of the board's activities, has received an application for assistance in bringing out the farmer and his family. The association is a self-helping organization who is now working at good wages here and wishes to have his family with him.

He has already brought one of his daughters and a son and still has in Scotland, besides his wife, a family of six children, two of them at work. This is the class of work that the board is carrying on the most practical kind of immigration work in helping such people.

Passed Civil Service Exams

Ottawa, Dec. 12.—Among the successful candidates at a qualifying examination for the outside division of the civil service, held at different centres throughout the Dominion on the 12th, 13th Nov. 1913, were at Moncton (N. B.), Leon Flett, at St. John (N. B.), Rupert L. Field, at Halifax, Harry B. Roberts, at Yarmouth, Harry R. Daly, at Halifax, Margaret Curry, Robt. W. Gibson, Brian R. Padmore.

BIRTHS

SULLIVAN—Dec. 11, to Mr. and Mrs. Harry D. Sullivan, 114 Orange street, a daughter.

GREGORY—To Mr. and Mrs. H. Roy Gregory, 80 St. James street, a daughter.

MARRIAGES

MAREY—HAZLEWOOD—At St. John, West, Dec. 10, 1913, Ernest C. Marey to Annie R. Hazlewood, daughter of Dr. and Mrs. J. T. Hazlewood, St. John, West.

STONE—TIBBS—At the parsonage of Water street Baptist church, on the 18th inst., by the Rev. F. H. Wentworth, G. A. Stone to Jessie Tibbs, both of Moncton.

DEATHS

BROWN—At Sinder Mountain, on Dec. 1, of heart disease, Aaron Brown, in his 66th year, leaving his wife, Ellen and Susan, to mourn their loss.

McLEOD—In this city, on Dec. 12, John McLeod, aged 82 years, leaving father and two sisters, besides a large circle of friends to mourn their sad loss.

MAJOR FRINK AGAINST IT

Council Therefore Will Not Buy Motor Fire Apparatus

AS PROPOSED BY COM. McLELLAN

Latter Submits His Report on the Police Investigation—His Deductions—Report Received and is to be Further Considered at Council Meeting in a Few Days

At the common council meeting on Saturday the recommendation of Commissioner McLellan to purchase a motor combination hose, chemical and pump and a motor-ladder truck and aerial ladder at a cost of \$26,800 was defeated by Mayor Frink's voting nay.

All the other commissioners voted yes. The price McLellan's proposal, but as a bond issue was necessary to meet the cost, the unanimous vote of council was necessary before the report would pass.

Commissioner McLellan, when it was intimated that there would be no objection to the purchase of a single piece of apparatus, said that one such piece of little use without the other, and he would not make a motion to that effect.

The other important business at the meeting was the reading of Mayor Frink's report on the investigation of the fire department. We must be up-to-date and we must do everything in our power to protect property.

Mayor Frink said that in 1904 the first steam pump had been purchased and the then aldermen paid for it by a joint note of the corporation and the city. It had then been paid for by the city.

City Engineer Murdoch said that if the steam pump had been purchased to make steam apparatus unnecessary. Steam pumps were never used here. The city had some good apparatus and when money was so difficult to obtain the city could afford to postpone this purchase for a little while.

"If you have \$15,000 or more to spend this year, why not put it at St. John's disposal, where we have money tied up."

A SUBSTITUTE FOR POTATOES

Dasheen, the New Vegetable That May Win Favor With the American Palate

(Boston Transcript)

Uncle Sam's scientific armament, who are paid to discover and cultivate new things that are good to eat, believe that the dasheen, which is good, starchy, scaly, boiled, mashed or creamed and from which you can make pies and puddings or just convert it into flour for bread, pancakes, etc., they had put it at St. John's disposal, where we have money tied up.

From Florida comes the report that the dasheen is finding much favor among the farmers of that state and that it is becoming popular as table food, thanks to the experiment of the State Agricultural Department and to the government farmers at the Brooksville (Fla.) plant introduction field station elsewhere.

The government's interest in the cultivation of the dasheen is due to its anxiety over the Irish, or white, potato, which has developed a tendency to contract various diseases and which is admittedly becoming more uncertain in quality and quantity as the harvests go on.

In a recent number of the Fruitman's Guide a Florida correspondent writes that the success of the Florida farmer in cultivating dasheen will make the northern farmers sit up and take notice. He points with pride to the crop of a former Jerseyman named Purdie, who planted five acres to dasheens near Tampa and raised 85,000 pounds, or nearly 700 bushels, of the vegetable to the acre. Purdie, he says, expects to clear the acre of 100,000 for his season's work, or a cash return of \$1,000 to the acre.

The correspondent admits that the price of dasheen (five cents per pound) is high, but insists that its general cultivation will soon reduce prices.

Florida, he says, is particularly adapted to the raising of dasheen, as it will grow in the summer months and that is not generally used for any other purpose. The land where the ex-Jerseyman's crop was raised was planted by him on Nov. 15 of last year and yielded \$1,400 to the acre, and on Feb. 1, he planted Irish potatoes, realizing \$200 to the acre. On June 1, he put in dasheen, which at the present time will give him a grand total of \$3,900 per acre for his year's work.

According to Uncle Sam's office of foreign seeds and plants of the Agricultural Department, the dasheen is closely allied to the taro of Hawaii, China and Polynesia, and is well adapted for culture in moist lands of the south.

C. W. Barrett, who was connected with the Porto Rico agricultural experiment station, made the first collection of tuberos root-like aroids, imparting food value to the taro, which is a form of potato of the French Indies, meaning China.

Dasheen is known, Mr. Young says, in various parts of tropical America as malanga, eddo, coco, taya and taian, and belongs to the genus coccoloba.

The dasheen stalks grow to a height of four to six feet. It has shield-shaped leaves, not unlike elephant ears. Each hill of dasheen contains one or two large spherical corms, growing to five pounds in weight, around which are developed numerous tubers. Both corms and tubers are similar to the potato in composition, but contain less water.

One pound will produce from four to ten pounds of tubers in good rich soil. Both corms and tubers have an agreeable, nutty flavor and are easily digested. Government analyses show that dasheen contains 27.3 per cent of carbohydrates (starches and sugar) and 9 per cent of protein, as against 18 per cent starch and 10 per cent protein of the Irish potato.

Not only can a cook do all the things to dasheen that she can do with the potato, but she can use it in a number of ways. The first-grade tubers weigh from four to five ounces and are thought by many to be superior to the Irish potato.

It is believed that the dasheen will be a familiar vegetable in our markets before long.

Yarmouth Landmark Burned

Halifax, Dec. 14.—Fire last night destroyed the Old St. James Hall, at Yarmouth, one of the historic buildings of the town. It was erected in 1834, and was at one time used by the Methodist congregation as a place of worship.

Bread four should always be used for bread, and pastry four for pastry, for the two are quite different things. The first should absorb the most water and the second the least.
