5. Question.

In connection with the Centennial Commission, items 35, 40 and 45 specify the amounts that are to be paid to each of the provinces. Could this be broken down to show the amount that each province will receive?

Answer.

The following table shows the cumulative totals to October 20, 1966 and November 30, 1966.

The figures cover direct payments only; up to \$200,000 will also be paid in total to the provinces by way of reimbursement. No breakdown of this amount is available at this time.
