RUM-RUNNERS GIVE NAMES OF MEN HIGHER UP

Pair Taken at Samia Had
Hidden Pockets in
Auto.

SARNIA, Feb. 3.—Headed for Detroit and guiding two automobiles carrying whisky valued at \$5,000, Daniel Greenburg of Toronto, taken into custody by the provincial authorities, paid fines and costs in court here today totalling \$2,036.75. His companions, Morris and Charles Jacobs of Toronto, were allowed to go on suspended sentence by Magistrate German on payment of court costs.

Greenburg, according to the magistrate's statement, escaped a long prison term because he announced that he was willing to divulge the names of the brains of the rum-runners in Toronto, Detroit and the border cities along the St. Clair River.

Tonight the authorities refused a statement concerning the names Greenburg gave, but it was intimated that the names of Detroit men were turned over to the federal authorities.

This is the largest fine ever paid by a rum-runner taken into custody here. The men arrested had their cars fitted with specially constructed pockets so they could pass customs officials at the border, and each car carried 50 cases of wet goods. One feature of the seizure was that the whisky was all labelled "Green River," made in Old Kentucky.

HOW TO FIGHT UNREST.

WINDSOR, Feb. 3.—Equitable in tariff protection, adherence to constituted forms of government and more earnest support of the church as the most potent weapon in combatting present sociological unrest throughout the world were the main points of a lecture by W. F. Cook, M.P., of Brantford, in an address here before 500 men at the annual dinner of the Men's Organization of All Saints' Church.

During his address Col. Cook declared that the speaker of the Ontario legislature, that he was opposed to all such extreme legislation, in the belief that men cannot be made good by act of parliament.

85,000 BLAZE AT HANOVER.

HANOVER, Feb. 3.—Fire, which started from spontaneous combustion when an employee named Kruger was getting a pan of benzene from tank, caused a loss of \$8,000 and for a time threatened the big plant of the Knechtel-Purcell Co. The fire broke out in the benzene struck the pan there was a burst of flame. Kruger stayed long enough to get the tap off. The factory fire department did excellent work, and aided by the fire sprinkler system, the flames were confined to the section in which the fire started.

MILK PRICES LOWER.

GALT, Feb. 3.—The price of milk here has been reduced to 13 cents a quart. This is due to several causes, the chief factor being lower prices of feed and farm help.

SENT TO BURWASH.

LITZOWEL, Feb. 3.—Teddy Ryan, who recently tried to commit suicide in his cell at the jail here, appeared in police court today on three charges and was sentenced to the Burwash reformatory for two years on each charge, the sentence to run concurrently. Ryan was charged with attempted suicide, with two charges of committing an offence against a local youth, Crown Attorney G. J. McPherson appearing for the prosecution with the attempt at suicide, and with a charge of carrying a knife and cut a vein in his neck.

SAYS FIELDING CONTRADICTORY

Meighen Charges Liberal
Transgressed His Party
Platform.

MONTREAL, Feb. 3.—(By Canadian Press.) The Right Hon. Arthur Meighen, prime minister of Canada, speaking as the guest of honor at the citizens' banquet, held at the Windsor Hotel tonight, made it clear that he was not there to make any new pronouncements, but that he would attempt to expound and emphasize the broad lines of policy the Government was following, and in this connection referred to Canada's national position, pointing out that "the elevation of our status as a British nation has through all the years been a matter of growth rather than of change, and so it will always be."

Speaking of racial misunderstanding, the premier said that he had not in all the years of his public life been a party to a statute that in a single time was unfair to English or to French, and he added that he was anxious for a fair distribution of the duties of government, which, he stated, did not exist today. He said that a fair distribution of public offices of every kind was a principle that both the great races of Canada should recognize as essential.

As to the policy of the Government in regard to taxation, he said he looked to your tax bills and wait for the budget speech, and he pointed out that the country was now in a two-billion-dollar war debt, which entailed alone \$20,000,000 of interest, while the commitments in railways—incapably unremunerative for some years to come—and other obligations make a total of \$400,000,000 yearly.

"The gospel I preach on this subject is . . . the gospel of 'pay as you go.' A program of expenditure and borrowing is usually more popular, but we are just at the time when such a policy would be foolishness. We must pay money to pay as we go, new taxes have been imposed, and the principles we have followed are these: we have taken the broadest possible basis of taxation ability first to have all, or nearly all, contribute a little."

Ability to Pay. He said he was mainly the principle of all taxation within the limit that success should not be cancelled nor capital burdened. Discussing the tariff policy of the Government, he said he was down the exact lines of the Government's position, summing it up in the sentence, "I want the goods we make in this country to be made here still—and more so."

Turning to the speech of Hon. W. S. Fielding last night on behalf of the Liberal candidate in the West, he said that the speech in which Mr. Fielding did not suggest the lowering of a tariff duty was a "disgraceful" statement, and he said he was down the exact lines of the Government's position, summing it up in the sentence, "I want the goods we make in this country to be made here still—and more so."

**ADMIT PLANNING
TO BURGLARIZE HOUSE**

WINDSOR, Feb. 3.—James Weston and Cecil Clark, both of Windsor, arrested because they carried concealed weapons, confessed to the police tonight that they had planned to burglarize the home of Samuel Mossman at 447 Wyandotte street east. Clark and Weston both pleaded guilty to the charge of carrying weapons, and were remanded to jail for three days. They were arrested with Clark and Weston, accused of the same offence, has not yet made his plea.

**GALT TO HAVE NEW
UTILITIES BUILDING**

GALT, Feb. 3.—Manager W. H. Fairchild of the public utilities commission is having plans prepared for the new utilities building and it is expected excavation will be under way before the end of March. Three buildings at present on the site will be removed. The G. R. R. while operating on its new line has had to take up its tracks on Water street, and is using them at present to continue switching service to the west side manufacturing. It is expected something definite in regard to agreement to continue this service will be forthcoming in a few days.

PENSIONS OF CANADIAN DISABLED SOLDIERS ARE HIGHEST. REPORT CLAIMS

Board of Pensions Commissioners' Statement Contends
That Totally Disabled Men Get Higher Pay Here
Than in Other Belligerent Nations.

Ottawa, Feb. 3.—By Canadian Press.—A statement showing the scale of pension awarded to the totally disabled, in nine of the countries which participated in the war, has been issued by the board of pension commissioners. The figures show that, with the exception of one instance in which the United States pension is higher, Canada awards the highest pension to the totally disabled soldier higher pension than the other belligerent countries. To a totally disabled pensioner, Canada gives a pension of \$900. If he has a wife, he gets \$1,200. If a wife and one child, the amount is \$1,350; if a wife and two children, \$1,524, etc. The United States gives to a totally disabled pensioner \$600, but the pensioner and wife receive only \$1,080, while if they have one child the amount is \$1,140. The rates for Canada include a bonus for one year as took place September 1, 1920. The comparative scale is as follows:

Personal Health Service

(By WILLIAM BRADY, M.D., Noted Physician and Author.)

GALLS INFLAMMATION.

The gall bladder or gallbladder should be distinguished from the bladder which serves as a reservoir for the kidney excretion. The gall bladder is accurately as large as a hen's egg and holds only an ounce or two of gall or bile. It has no function, at least none which is more essential to health or life than the function of the stomach, teeth, the tonsils and the vermiform appendix, which is none at all so far as can be discovered.

Inflammation of the lining of the gallbladder is much more frequent than is generally supposed. It is usually recognized, at least for some months or years, because the sufferers are quite content to assume they have "stomach trouble," "food turns to gas," "acidty," "heartburn," "dyspepsia," "indigestion," "neuralgia," or something else. Indigestion is a few subjects of gallbladder inflammation (doctors call it cholecystitis) have gallbladder trouble, or rather an accidental consequence of a feature of gallbladder inflammation (infection by germs) does not necessarily lead to gallstone formation.

In a recent talk about gallstones I gave the commonest cause of gallbladder trouble as being a "food turns to gas," "acidty," "heartburn," "dyspepsia," "indigestion," "neuralgia," or something else. Indigestion is a few subjects of gallbladder inflammation (doctors call it cholecystitis) have gallbladder trouble, or rather an accidental consequence of a feature of gallbladder inflammation (infection by germs) does not necessarily lead to gallstone formation.

PRICE DECLINES BEGIN IN BRITAIN

Belief That Pinnacle Has Been
Passed in High Cost of
Living.

LONDON, Feb. 3.—The decline in the cost of living which the United States has been experiencing of late, is beginning to be felt here, and it is believed that the pinnacle of high prices for food has been passed, and a steady decrease is now looked for. Food experts estimate that by March 1 prices will have fallen from 10 to 25 per cent as compared with January 1, in such commodities as bacon, flour, bread, sugar, tea, potatoes, margarine, eggs and fish.

The outlook is regarded as most promising, as excellent wheat crops have been reported from all over the world, and the effect of this is likely to be felt early. A fall in the price of flour means a fall in the price of all commodities, especially woolen textiles, already has shown a heavy decrease, but this is largely due to accumulated stocks caused by lack of export trade.

It is believed the decrease in prices will involve a revision of wages as in America, and that new wage agreements, affecting 1,500,000 workmen will be made. But no hard and fast rule can be laid down as to when the reduction in the cost of living will affect wages, and the extent of readjustment will depend on the state of prices during the next three months. All trade forecasts tend to show that the end of March will be the time when the heavy decline in the present trade depression, according to F. G. Kellaway, head of the department of overseas trade, who says that the banking credit system in this country has weathered the worst of the storm. His advice to British manufacturers and traders is to be depressed over existing conditions. Now is the time to look ahead. Make your preparations now. Plant your seed for the time when the old demands are felt.

England, which has been jealously watching the declining price in the United States, now takes comfort in the prospect of a similar development at home.

**MORE POLICE ARE
NEEDED AT BRANTFORD**

BRANTFORD, Feb. 3.—Police officials received over a dozen reports from storekeepers whose officers were breaking into overnight twenty dollars in stamps was taken from the office of the Wood Coal Company. Percy Walsh's coal office was also ransacked. W. G. Hanton's car was stolen while the police were attending a meeting in Wellington Street Church. In only one of the dozen petty burglaries was the thief taken into custody. The police are making an appeal to the commissioners for a large force.

**BRINDELL IS FOUND
GUILTY OF EXTORTION**

NEW YORK, Feb. 3.—Robert P. Brindell, president of the Building Trades Union, was found guilty of a charge of extortion from builders of a jury in Justice McAvoy's court here.

In his instructions the judge told the jury they must confine their deliberations to but one transaction, alleged to have passed between Brindell and Max Aronson, a manufacturer, the indictment against Brindell was based on the allegation that he received \$2,500 from Aronson, which the prosecutor claimed, was paid to call off a strike on work of Aronson's buildings.

Brindell, who is 41 years old and lives in the Bronx, was indicted on December 7, 1920, and placed on trial January 11, 1921.

**ABYSSINIANS BRING
PRESENTS TO POPE**

Rome, Feb. 3.—The Pope has received a special mission sent by Wazero Zauditu, Empress of Abyssinia, and the prince regent, Ras Tafari Makonnen, bringing messages and presents from both. The mission was composed of French missionaries, to whose care

the Ethiopian Catholics are entrusted. The presents included a processional cross in massive silver from the emperor and a pectoral crucifix in massive gold from the prince regent. There was also another gold pectoral cross from the governor of Harar to the Pope, and a silver gift crucifix from the prince regent to Cardinal Gasparri. All the presents are interesting specimens of Abyssinian craftsmanship.
