Bug Death Pays!

What Quebec Farmers Say.

Compton, P. Q., Oct. 11, 1902.
 I have no hesitation in saying that Bug Death is not only true to name, but also increases the yield of potatoes and stops the blight. Such is our experience here. GOVERNMENT AGRICULTURE SCHOOL, JOHN M. LE MOYNE, Director.

East Angus, P. Q., Oct., 1902.
 I have used Bug Death this season, and I will give you the results. I planted 11 bushels, harvested 203 bus. large and small potatoes; treated them with Bug Death. Last year I planted 12 bus., and when I dug them there were only 30 bus.; treated with Paris green. Yours, J. F. CLANTON.

THE RAZOR STEEL, SECRET TEMPER, CROSS-CUT SAW.

WE take pleasure in offering to the public a saw manufactured of the finest quality of steel, and a temper which toughens and refines the steel, gives a keener cutting edge, and holds it longer than by any process known. A saw to cut fast "must hold a keen cutting edge."
 This secret process of temper is known and used only by ourselves.
 These saws are elliptic ground thin back, requiring less set than Saws now made perfect taper from tooth to back.
 Now, we ask you, when you go to buy a Saw, to ask for the Maple Leaf, Razor Steel, Secret Temper Saw, and if you are told that some other Saw is as good, ask your merchant to let you take them both home, and try them, and keep the one you like best.
 Silver steel is no longer a guarantee of quality, as some of the poorest steel made is now branded silver steel. We have the sole right for the "Razor Steel" brand.
 It does not pay to buy a saw for one dollar less, and lose 25 cents per day in labor. Your saw must hold a keen edge to do a large day's work.
 Thousands of these Saws are shipped to the United States and sold at a higher price than the best American Saws.
