Dear Mr. Meighen:

Some time ago Miss Mary Hope Simpson, formerly with the British Student Christian Movement, called at your office to present to you the claims of the Student Christian Movement of Canada.

We venture to enclose herewith one of the pieces of publicity which are being used in our present campaign in the City of Toronto to increase the number of those who are sustaining our work.

The opportunity before Christian forces in the universities of Canada was never greater than at present, nor the task more urgent. The student response is excellent, but we are seriously hampered by the lack of adequate financial support. I trust that you may be among those who at this time are making a contribution in our Toronto campaign to the work in the University here, to the National Movement, and to our world-wide enterprise.

Yours sincerely,

Beverly L. Oaten
General Secretary
