

If Your Pain Is There, What You Need Is a Good Tonic For The Kidneys

The kidneys are the scavengers and they work day and night in separating the poisons from the blood. Their signals of distress are easily recognized and include such symptoms as lumbago, backache, depressions, drowsiness, irritability, headaches, dizziness, rheumatic twinges, dropsy.

People are realizing more and more every day that the kidneys, just as do the bowels, need to be flushed occasionally. The kidneys are an eliminative organ and are constantly working, separating the poisons from the blood. Under this continual and perpetual action they are apt to congest, and then trouble starts. Uric acid backs up into the system, causing rheumatism, neuralgia, dropsy and many other serious disturbances. It means that you are a victim of uric acid poisoning. Then ask your druggist for Anuric (anti-uric acid) and you will very soon become one of hundreds who have been helped by this powerful enemy to uric acid.

Dr. Pierce manufactures these Anuric tablets and you can obtain a trial pkg. by enclosing 10c and addressing Dr. Pierce's Laboratory, Bridgeburg, Ont.
