

PLATE II.

Fig. 1. Large lake at Konganevik, Camden bay. Note the broad belt in the foreground of aquatic flowering plants. July, 1914. Photo F. Johansen.

Fig. 2. Pond overgrown with *Hippuris*, *Eriophorum*, *Carex*, etc., inland on Herschel island. It was from this swamp that the comparatively rich desmid flora was secured. July, 1916. Photo F. Johansen.
