

**Remember that the ring of Your Money in The Hospital's Treasury is a Christmas chime that finds its echo in The Hospital's deeds of help and mercy through the year**

The cost of each patient per day was \$1.98 $\frac{3}{4}$ ; or \$79.50 for the 40 days' stay of each patient.

The increased charge for maintenance has been caused by the high price of everything used in the Hospital, and the increased number of patients.

Every item of expenditure is closely watched and not one cent expended that can be avoided.

The food, fuel and milk supplies are all under contract by public tender.

Every article ordered for this Hospital is obtained on a signed requisition which is countersigned by the Secretary; the goods on receipt must be exactly as ordered. The cheques are signed by the Secretary and countersigned by the Chairman, and the latter has the account before him, as he countersigns the cheque.
