FIRE AT MILL CREEK.

Grand Rapids, Mich., Sept. 28.— Fire broke out in the drying and cur-ing building of the Grand Rapids Leather Co., at Mill Creek, four miles north of this city, on Grand river, at 1.30 this morning, and destroyed it with a large stock of cured leather and machinery. The loss is estimated at \$100,000, partly insured. The whole plant is threatened, and fire apparatus has been sent from here.

CROTON.

S. Bloom and Sam. Hart took driver to the Maple City, which they recently sold to Harland Smith. Geo. Goulet was at Dresden Satur-

D. M. Healy visited the Maple City Saturday.

Wm. Eutler is erecting a woodshed it the Union school, Dawn.

T. McCutcheon is fitting a colt for John Ross, our principal stock buy er, has a nice bunch of steers for win-

ering. Miss Bigham has returned from Chatham, where she visited for a

John and Henry Webster, of Dawn Mills, were at Chatham Saturday. William and George Smith have the late Wm. Smith's property left to them, after making a settlement with Mrs. Smith. George and Robert Bloom attended

the funeral of the late William Shaw, in Chatham township. Mrs. Chaple is ill with typhoid fever, but is doing as well as could be

Jarvis Paul has purchased 50 acres of land from D. Wills, on the 10th the strongest men in the Conservative party andif Harry accepts a nomination in East Kent he is a winner. He is a general favorite with the boys and would put up a fight that would astonish some of the old war horses. Albert Logan is here on a business

Uncle Harris was a carpenter, and had a shop in the country. One day he went into the barn, where Dick pigeons.

Boys," said he, "my workshop ought to be swept up every evening. Which of you will undertake it? I am willing to pay a cent for each sweeping. "Only a cent?" said Dick.

would work for a cent?"
"I will," said Joe. "A cent is better than nothing."
So every day when Uncle Harris was done working in the shop Joe would take the old broom and sweep it. And he dropped all his pennie in his tin savings bank. One day Uncle Harris took Dick and Joe to town with him. While he went to buy some lumber they went into a store where there were toys of every

"What a fine kite?" said Dick. wish I could buy one.' "Only ten cents," said the sales-

"I haven't a cent," said Dick. "I have fifty cents," said Joe; "and I think I'll buy that bird "How did you get fifty cents,"

"By sweeping the shop," answered "I saved my pennies and did not open my bank until this morning." Joe bought the kite and a fine large knife, while Dick went home without anything.

Childish Humor.

Here are some specimens of child-ish humor from the Chicago News: "Oh, mamma," exclaimed four-year-oid Flossie as she observed the moon on its second quarter, "come and look at the moon. Half of it is pushed into the sky, and the other half is sticking out."

Tommy, aged five, has been busy whittling and managed to raise blister on his hand which caused a slight break in the skin. Running to his mother he showed it to her and said, "Mamma, I guess I'm begin-ning to wear out."
"Did they sing any pretty songs at

Sunday School?" asked a mother of her little four-year-old daughter gpon her return home. "Only one," replied the little miss, "it was some thing about Greenland's ice cream fountains."

Papa-Well, Willie, have you been a good boy to-day? Small Willie— Did you ask mamma? "Why should ask her? Don't you know whether you have been a good boy or not?'
"Yes, but mamma's idea of good ness differs from mine, and I don't want to go back on anything she

Housework and the Hands.

When engaged in sweeping and dusting and similar household tasks the hands should be protected with loose gloves. If rubber gloves are not used in dishwashing, a dishmop should be used, to prevent the hands should be used, to prevent the hands from being so frequently immersed in hot soapy water. After doing rough, coarse work which has be-grimed the hands, before attempting to wash them rub in the pores a little vaseline or oil to loosen the dirt, then wash them in hot water and pure soap, using a hand scrub-bing brush. Lather them well and remove every particle of grime from about the nails. Turn out the soapy water and rinse them in tepid water and lastly in cold, so that they will not be made too tender. Hard wa-ter is very harsh and trying to the skin of face or hands, and boiled, distilled or soft rain water should be used when obtainable.

REFUSES TO BE AN ANGEL. Toronto Star.

Hon. J. Israel Tarte is said to beafflicted with deafness, which is doubt-less the reason why he fails to heed the Hamilton Spectator's passionate appeals to him to get off the earth.

Those who know when to speak, now when to be silent.

A HELPLESS MAN.

A man is certainly in a helpless condition when he has to sit with his leg on a chair for weeks, unable to move. William Grimshaw, Wolfe Island, Frontenac County, Ont., was in this plight. Doctors could do nothing for him and the pain remained in his legs for six months. Three bottles of Dr. Hall's Rheumatic Cure and three boxes of Climax Iron Tonic Pills routed the disease and restored him to perfect health. He now recommends it to all sufferers. This great blood purifier is put up in bottles containing ten days treatment. Price 50 cents at all drug stores or The Dr. Hall Medicine Co., Kingston, Out.

You say that the defendant turned and whistled to the dog. What folwed?
Why, said the witness, innocently,

BRONCHIAL Affections, coughs and colds, all quickly cured by Wyny-Bal-sam. It has no equal. Acts promptly, soothes, heals and cures. Manufactured by the proprietors of Perry Davis' Pain-Killer.

I hear you don't have anything stronger than coffee to drink at the No. It made me think of a fake seance; the spirits didn't materialize.

Take care of the stomach and the health will take care of itself. If peo-ple only realized the soundness of that statement the majority might live to a good old age like Moses, "the eye undimmed, the natural force unabated." It is in the stomach that the blood is made. It is from the stomach that nourishment is dispensed to nerve and muscle. If the stomach is 'weak" it can't do its whole work for each part of the body. If it is diseas-ed the disease will taint the nourishment which is distributed, and so spread disease throughout the body. It was the realization of the importance of the stomach as the very centre of health and the common source of disease, which led Dr. Pierce to prepare his "Golden Medical Discov-"Diseases which originate in ery." "Diseases which originate in the stomach must be cured through the stomach." The soundness of this theory is proved every day by cures of diseased organs, heart, liver, lungs, blood,—by the use of the "Discovery" which is solely and singly a medicine for the blood and organs of digestion and nutrition. and nutrition. It is a temperance medicine, containing no alcohol, whiskey or other intoxicant.

There'll be one great blessing in heaven.

What's that?

All the angels won't be criticising one another's vocal method.

Victims of Catarrah, Prejudiced Tried snuffs, they failed. Ointments and washes failed. Said there was no cure. Knew there wasn't because he had tried them all. This is how prejudice acts. There is, however, a balm in Gilead, a sovereign remedy for Catarrh, not dangerous because it acts quickly, not unpleasant because it is sure to cure. Its name is Catarrho-zone. It destroys germs, it soothes, it heals. As certain as death to cure, as pleasant as sunshine to use. That's Catarrhozone. Your money back if it is not so. 25c, and \$1.

I understand that Frailman has come to the conclusion to contest his wife's will. Well, what is there courageous about that? She's dead, isn't she?

It Will Give You an Appetite

And a stomach to take care of it, a digestion that will fill your veins with rich blood; if weak, it will strengthen the heart; will make the liver discharge its proper functions. Ferro-zone will do all this, and more, too. Ferrozone will increase your nervo force, and capacity for mental labor, and will make work a real pleasure. Every man, woman and child can de-rive benefit from Ferrozone. At Mc-Call & Co's.

I hear Miggs has an addition to his family.
He calls it multiplication. It's

The Cause of Dyspeptic Pains

They arise from the formation o gas owing to improper digestion. A very prompt and efficient remedy is Polson's Nerviline. It relieves the distention instantly, and by its stimulating action on the stomach, aids di-gestion. Nerviline cures dyspeptic pains by removing the cause. Nervil-ine is also highly recommended for cramps, colic, summer complaint and inflammation. Sold in large 25c. bottles everywhere.

Jack-And did she make a fool of Arthur—It was worse than that. She let me make one of myself.

EVERY Housekeeper must often act as a family physician. Pain-Killer for all the little ills, cuts and sprains, as well as for all bowel complaints, is indispensable. Avoid substitutes, as there is but one Pain-Killer, Perry Davis', 25c. and 50c.

There are seasons when to be still demands immeasurably higher strength than to act. Composure is often the highest result of power.

Stanstead Junction, P. Q., 12th Aug., Messrs, C. C. RICHARDS & Co.

Messrs, C. C. RICHARDS & Co.

Gentlemen,—I fell from a bridge leading from a platform to a loaded car while assisting my men in unloading a load of grain. The bridge went down as well as the load on my back, and I struck on the ends of the sleepers, causing a serious injury to my leg. Only for its being very fleshy, would have broken it. In an hour I could not walk a stee. Commenced could not walk a step. Commenced using MINARD'S LINIMENT, and the third day went to Montreal on busi-ness and got about well by the use of ness and got about well by the use of a cane. In ten days was nearly well. I can sincerely recommend it as the best Liniment that I know of in use. Yours truly,

C. H. GORDON.

THE GREAT DISMAL SWAMP.

A Region Strange and Interesting, The Great Dismal swamp is a region strange and interesting, weird and soli-tary. It occupies a billowy plain some 40 miles in length by 25 miles in breadth along the Atlantic seaboard, extending from Suffolk, Va., in a southerly direction, well into the bounds of North Caro-

Its deep shades, great stretches of brake and its solitude make it a region of interest. To the naturalist and sports-man it has much to offer. In its silent fastnesses the black bear finds a home admirably adapted to his protection and in every way favorable to his increase. Here amid the dense growth of under-brush and timber he may live in com-parative safety, and there is perhaps no ocality in the whole eastern United States of like extent which can offer a larger bear population than this great morass. The white tailed deer is also an

abundant desizen of the swamp, fre-quenting the elevated parts.

In addition to the deer and bears, there is a big game feature of a rather unusual nature. The swamp abounds in wild cows. These animals, of a brown color and somewhat smaller than the ordinary cow, having for many years been under the peculiar conditions of the swamp, until they are almost completely specialized, are extremely wild. They are feralized from the herds of the farms adjacent to the swamp, and are the descendants of cattle which many years back wandered into the fastnesses and were lost to their owners, finally becoming wild. Being no longer recognized as property the sports-man may call game all that he may have

the prowess to shoot. Lake Drummond, some ten miles from Suffolk, Va., is the only great body of water in the swamp. It is a beautiful sheet of water, of an oval contour and fringed with a heavy growth of timber, mostly contour white section water. mostly cypress, white cedar and black gum. Its water is of a dark color owing to the decaying vegetation of the sur-rounding country, but is suitable to drink, and possesses the quality of re-maining pure longer than most other water. For this reason it is often car-ried to sea by sailors on long voyages.

The characteristic mammalian fauna is of a semitropical nature as regards the smaller forms, while there are many tropical plants. Of birds there are not many kinds, prothonotary, hooded and Swainson's warblers and the Maryland yellowthroat being the principal smaller forms. The trees, some of which are primeval, are large and beautiful, while aquatic plants. Cane grows in profu

CULINARY CAPERS.

A round of broiled Hamburg steak with a crisp slice of delicate bacon on top is Stock intended for clear soup must be

skimmed as it boils and as long as the A layer of sliced onions placed on the top of a roast of beef and allowed to cook there will give a delicious flavor to the meat, while their distinctive flavor will

not be noticeable. Minced or stewed potatoes or any prep aration of that sort should never be stir-red with an iron spoon, as it is in many kitchens. A plated silver fork kept for the purpose or a wooden salad fork is

Cream vegetable soups should be accompanied with squares of toasted bread; oyster and clam soups with pickles and crackers. Croutons should be served with purees; with gumbo boiled rice is the ac ompaniment.

Cauliflower should be placed head down in cold, salted water for 10 or 15 minutes before cooking, to draw out insects. In boiling, slightly salted water should be used, and the head should be placed downward in the kettle.

Plea For Single Beds.

Two in a bed is the usual custom of sleeping, in the United States at least, and also in Canada and England; but in Germany and France single beds are the rule. The latter plan is more healthful and comfortable. It is gradually coming into use in this country. Single beds in volve more linen, more work in making beds and more washing, but I never knew a family to return to the old plan after once giving single beds a fair trial. Especially in summer is the single bed to be preferred, or even sleeping on the floor, to two in a bed. Many families de-clare they never knew what comfort was during the summer nights until they adopted the single beds. I might add a word of protest against all wing babies or young children to sleep with old people. The latter certainly draw upon the vitality of the former. This is probably true as between any bedfellows one of whom is sickly or love strong than the whom is sickly or less strong than the other. Consumption and other diseases have often been communicated from one

An Antidote to Poison Ivy. In addition to the aids of the druggists' lotions, nature is said to have provided a lotions, nature is said to have provided a most efficient remedy for poison ivy poisoning in the shape of the widely spread flower known as "spotted touchmenot," or Impatiens fulva. It is also called the "jewel weed" and is abundant in the water courses during June and July, when the Rhus toxicodendron and the Rhus venenata are most poisonous. The color of the flower of "spotted touchmenot" is a deep orange, and the spots are of a reddish brown. The lip forms a sack not much unlike the moccasin flower, and it ends in a curved spur. The seed pods burst if slightly touched and scatter the seeds all around. To this peculiar property the plant owes its common name. It is also called "noli me tangere" and "n'y touchez pas." The remedy is applied by expressing the juices of the plant and applying it to the skin which has been poisoned.

His Pass. A ticket collector on a railway got leave to go and get married and was given a pass over the line. On the way back he showed to the new collector his marriage certificate by mistake for his pass. He studied it carefully, and then said, "Eh, mon, you've got a ticket for a lang, wearisome journey, but no on the Caledonian railway."

The Prescription. I can sincerely recommend it as the best Liniment that I know of in use. Yours truly,

C. H. GORDON.

Minard's Liniment Cures Garget in Cows.

The Prescription.

The Prescription. **New Vital Force** For Cells and Tissues

Chronic Disease Overthrown and the Whole System Revitalized and Reconstructed by Dr. Chase's Nerve Food.

Disease is a tearing down, wasting away and destroying of the ssues of the body and a shrivelling up of the nerve cells and blood corpuscles. This wasting process may attack the lungs, the heart, the liver, the kidneys, the bowels, or, as is most frequently the case, result in collapse of the nervous system, prostration, paralysis or

You may rest assured that disease will search out your weak spot and gradually gain the upper hand. Nature alone cannot end this wasting process. External assistance is absolutely necessary, as you know too well if you have been observant of what is going on around you. As a result of centuries of investigation and research science now offers certain restoratives and revitalizers which have a wonderfully beneficial effect on a weakened and run-down system. These are combined in the most successful proportions in Dr. Chase's Nerve Food, which is by far the most thoroughly effective tissue guilder and nerve restorative that is known to the medical profession

Dr. Chase's Nerve Food

At least nine-tenths of the ailments from which people are suf-fering and dying to-day are the result of thin, watery blood, exhausted nerve force and general debility of the body. Dr. Chase's Nerve Food stops this wasting process, puts new life and energy into the wasted nerve cells, fills the shrivelled arteries with rich, life-sustaining blood, and overcomes disease. It will be interesting to note the gradual increase in weight while using this famous food cure.
