## It's a Pure Baking Powder

**Y**OU cannot use a purer leavener than the baking powder made in our own laboratory. It is a cream of tartar and soda powder made of chemically pure materials and in just the right proportions. The price at which we sell it and the small amount necessary to produce results make it the most economical leavener that can be used.

### Our Baking Powder

can be depended upon. It never varies and is always fresh. PRICE 25 CENTS.
