

"Delecta" Pearls

THE VOGUE for pearl strings continues. They are appropriate for every occasion, with any costume—suitable alike for the young girl or matron and certain to prove a most welcome gift.

Delecta pearls are produced in Paris by a most interesting process and are, we believe, the finest of all artificial pearls. Made in a solid ball, they will not easily break, while their lustre is not impaired by ordinary usage. Every necklace is supplied in a suitable case without additional charge.
