

A Typewriter for your own personal use

IT is so much easier and quicker to do your writing on the machine, even if you operate it yourself. And the matter is so legible and compact.

YOUR letters when typewritten are sure to receive more consideration. Even your social correspondence is much better typewritten.

YOU can buy a good typewriter from us for as little as ten dollars. Suppose you write now for an interesting catalog which shows a score of different kinds.

Some cost **\$10** some more
