

Capacity

"The big capacity of my Rumely Ideal—just the extra capacity alone—has paid me its original cost many times over.

"My customers know what it means to have on the job a separator that will take *all* you can give it—of any kind of grain, wet, dry or frozen, and stand up to it without slugging or winding.

"They know, too, that with my Rumely on the job they'll have fewer meals to furnish me and my crew—for the Rumely works fast and gets through quicker than other threshers do.

"My Rumely Ideal has won more friends for me than I can serve. It has lost me none—except occasionally when one of my customers decides that the Rumely is the sort of separator he's been looking for and becomes a Rumely owner himself."

*Built in six sizes—Ideal 28 x 48, 32 x 52, 36 x 60
and 40 x 64—Ideal Junior 20 x 36, 24 x 44.*
