M. L. ROBERTS'

Hay and Straw Elevator,

PATENTED JANUARY 17th, 1868.

THIS Elevator has more advantages than any other now in use. First, it is cheaper. Second, it is stronger. Third, it is easier used (and can be used to get the hay out of the mow by hand). Fourth, it is simple in construction, and not likely to get out of order, and can be repaired by any blacksmith. Sixth, it can be worked by a boy ten years old, and in places where all other Elevators fail.

Any quantity of testimonials may be seen by sending for circular. Any person wishing to purchase county or township rights, apply, if by letter, post paid, to
