

NOTICES.

The Ontario Pump Co., of 369 Spadina Ave., Toronto, offer in this issue spraying pumps. No farmer who has fruit trees or bushes can afford to be without a sprayer. Write this firm at once and get their prices.

We are advised by fruit growers who have used the Ideal Spray Pump that it gives excellent satisfaction, especially with the McGowan Nozzle. This pump is made by the Gould, Shapley & Muir Co., Brantford, whose advertisement appears in this issue.

Our readers who have been interested in the discussion that has been carried on in the last few issues of the ADVOCATE in regard to Hydraulic Engines will observe, in this issue, a new advertisement of Rife Hydraulic Engine Mfg. Co., 126 Liberty St. New York.

We direct the attention of our readers to the new advertisement of the Z. Breed Weeder Co., of Boston, Mass., which appears in another column. This Company sent out a useful circular containing an article on potato growing, by Mr. Russell, of Massachusetts; also, "Weeds and Tillage," by Prof. Taft, of the Michigan Agricultural College; and "Shallow vs. Deep Cultivation," by Prof. Hunt, of the Ohio Agricultural College. Drop the Company a post card (mentioning the FARMER'S ADVOCATE) and you will be sent a copy free.

HYDRAULIC RAMS.

For several months past, articles have been running through the ADVOCATE discussing the simple, efficient and economical system of raising water by hydraulic rams, which might with advantage be adopted on thousands of farms in America. It can be used for supplying dwellings, factories, villages, stock yards, etc., with running water, and keeps steadily going, day and night, regardless of wind and weather. R. McDougall & Co., of Galt, Ont., the well-known manufacturers, are turning out an excellent ram, the price of which is from \$9 to \$22, according to capacity. We would heartily recommend our readers to write them for information on the subject and other particulars. This firm also make a specialty of Spray Pumps.

HOME-SEEKERS' EXCURSIONS.

In order to give everyone an opportunity to see the Western Country and enable the home seekers to secure a home in time to commence work for the season of 1906, the Chicago, Milwaukee & St. Paul R'y has arranged to run a series of four home-seekers' excursions to various points in the West, North-west, and South-west, on the following dates: March 10, April 7 and 21, and May 5, at the low rate of two dollars more than ONE FARE for the round trip. Tickets will be good for return on any Tuesday or Friday within twenty-one days from date of sale. For rates, time of trains, and further details, apply to any coupon ticket agent in the East or South, or address A. J. Taylor, Canadian Passenger Agent, 2 King St. East, Toronto, Ont.

3-1-o Winnipeg, Manitoba. Toronto, Ontario.

Do
You
Keep
Cows
?

TEN REASONS WHY YOU SHOULD USE THE DAVIS CREAM SEPARATOR.

- (1) It takes from 10 to 25 per cent. more cream from milk than any other system.
- (2) It makes more butter from the same amount of cream, as it churns more completely and quickly.
- (3) It enables you to make 25c. butter instead of 10c. to 12c. butter.
- (4) It enables eight cows to make as much butter as ten would under the old system.
- (5) It means warm, sweet milk for the calves in place of cold or sour milk.
- (6) It saves from 20 to 50 per cent. of the labor in handling the milk.
- (7) It saves the building of an ice-house.
- (8) It saves the expense of putting up large quantities of ice every year.
- (9) It takes the great burden of caring for the milk from the house.
- (10) It avoids the effect of feeding cold or sour milk to young calves.

The above results can be obtained by the use of either the Davis Hand International or Combination Cream Separator.

USE Queenston Cement

FOR BUILDING...
STABLE, SILO, AND OTHER
WALLS, CISTERNS,
STABLE FLOORS, HOG
TROUGH, ETC.

Haul your gravel and field stone during the winter, then you can build your structures with very little labor and expense during spring and summer.

Isaac Usher & Son, Cement Manufacturers, Thorold, Ont.

GENTLEMEN,—In 1893, I constructed a barn 112x44 feet. The walls and half the floor are of Queenston cement, the other half of floor is of Portland cement. I may say that I cannot see but the floor made from Queenston cement is equally as good as that constructed of Portland, which is much more expensive. Yours truly
