## Boog Spavin

Cure the lameness and remove the bunch without scarring the horse—have the part looking just as it did before the blemish came.  
**Fleming's Spavin Cure (Liquid)** is a special remedy for soft and semi-solid blemishes—Boog Spavin, Thoroughpin, Splint, Curb, Capped Hock, etc. It is neither a salve nor a simple blister, but a remedy unlike any other—doesn't irritate and can't be misapplied. Easy to use, only a little required, and your money back if it ever fails.  
**Fleming's Vest-Pocket Veterinary Adviser** describes and illustrates all kinds of blemishes and gives you the information you ought to have before ordering or buying any kind of a remedy. Mailed free if you write.

Some Americans interested in criminology were making an inspection of a penitentiary in England.  
"I presume," observed one of the party, "that here, as elsewhere, you prison officials find existence painful enough."  
"I think you may fairly say so, sir," responded the warden, with a grim smile, "seeing the number of felons we have on our hands."

**DODD'S KIDNEY PILLS**

of treating such cases. Some blister, but to be effective it must be done early. The only chance now is to place her in slings, syringe the wounds out three times daily with equal parts peroxide of hydrogen and water, and keep pounded ice to the parts constantly.

### NASAL GLEET

I bought a horse last spring, and after I got him home I noticed a discharge from his nostril, and his breath was very offensive. He still discharges from his nostril occasionally, and his breath is very fetid. He is a good feeder, and healthy, except for the trouble stated.

J. B.

Ans.—Your horse has nasal gleet, doubtless due to a decaying tooth. It is necessary to have the tooth extracted by a veterinarian in order to effect a cure. The administration of drugs will do no good until the cause is removed. If there be not a decaying tooth, there is decay of the bones of the sinuses of the head. In either case an operation is necessary.

### HEIFER WITH COUGH

Heifer has had a cough for three months, and her breathing is labored and temperature 103. She eats well and is fat.

H. T.

Ans.—The symptoms all indicate tuberculosis. There is little doubt that she is diseased, but there is no means of making a definite diagnosis except by the tuberculin test. The symptoms in this case are so plain that I do not consider it would be wise to go to the expense of having her tested. As there is no treatment for the disease, and it is dangerous to have her with other cattle, especially in such a well-marked case, I would advise you to destroy her.

### SCRATCHES

1. Ma e had scratches last spring. She got better, but there is a dry scurf between fetlock and hock. Her leg swells when she stands in the stable.

2. Are these symptoms of grease?  
R. R. G.

Ans.—1. Give her a purgative of 8 drams aloes and 2 drams ginger. Feed bran only for a day before and a day after giving the dose. When the bowels regain their normal condition, give 1 1/2 ounces Fowler's Solution of Arsenic twice daily for ten days. Dress the scurfly parts twice daily with 1 part carbolic acid to 25 parts sweet oil. Some horses are predisposed to this trouble, and it is probable you will have continued trouble with this one.

2. Not yet; but it is possible the condition may develop.

### UNTHRIFTY HORSE

Colt worked well as a three-year-old. This spring, when four years old, he failed all at once. I turned him on good grass, but he has not improved. Little pimples broke out on nose, neck and shoulders.

P. P.

Ans.—It is probable that the molar teeth have not shed. Have his mouth examined, and if any molar crowns have not shed, have them removed. Give him a laxative of 6 drams aloes and 2 drams ginger. Follow up with 1 ounce Fowler's Solution of Arsenic twice daily for ten days. In addition, give a tablespoonful of the following three times daily, viz.: Equal parts sulphate of iron, gentian, ginger, and nux vomica. Feed well and give regular exercise, but do not work him to tire him.

### PIGS HAVE COUGH

Pigs about nine weeks old commence to cough, then stop eating, breathe very heavily, and die in a few days.

T. W.

Ans.—The symptoms indicate infectious bronchitis. Place them in a close pen and burn sulphur so long as you can stand the fumes, then open doors and windows to admit air. Repeat treatment every ten days as long as necessary. In many cases, it is wise to destroy all the pigs affected.

## HASSARD'S HORSES

I have just landed a fresh importation consisting of Clydesdale and Hackney stallions and Clydesdale fillies, direct from Scotland. The stallions are sired by such notable sires as Lord Farnham, Revalante, Baron of Buchlyvie, Sir Everest and Prince Thomas; these stallions range from 2 years to 6 years old and are horses with lots of size and extra quality. The fillies are two and three years old and are sired by such horses as Prince Alexander, Benedict, Prince Attercliffe, Prince Maryfield and others. These are good big fillies with a lot of quality—the kind to take to the show ring. In fact, it is said by those who have already seen them that they are the best bunch that has ever come to the province. I have 18 more fillies coming that will reach Deloraine by November the 15th; further particulars of them later. Come and see me or write. I am always ready for business with small profits.

F. J. HASSARD, V. S., DELORAINE, MAN.

## PRIZE-WINNING

SHORTHORNS FOR SALE at prices that will interest intending purchasers I will sell young cows bred or with calves at foot. Also young heifers that will make a start for a herd second to none. Sales must be made to make room. James Wilson, Innisfail, Alberta.

## 50 We handle One Class Only and That the Best 50

Our Next Importation of

## 50 CLYDESDALES, FILLIES, MARES AND STALLIONS

will arrive at VIRDEN, MAN., about DECEMBER 15TH. Our last importation has been sold within one week, which shows that our stock is of a superior class. We are content with small profits and that accounts for quick sales. We thoroughly understand that the Western Farmer wants the best and buys accordingly. We intend now to bring out the best lot that ever crossed the ocean and would strongly advise intending purchasers to wait and see our stock. Address all correspondence to,
