### Says Prices Will Drop

James A. Patten, of Chicago, former "King of the Wheat Pit," grain authority in the United States, says:

Famine food prices are not coming next winter.

Flour ought to come down to \$12 or \$13 a barrel.

Potato prices will probably be cut in half.

Cost of wearing apparel has come down to stay down.

Farm labour shortage is no longer a serious problem.

People are over their "buying fever."

Cost of living generally won't be higher—with some things going down and none going up.

## Dancing and Music

The emotional side of the majority of people cannot be satisfied by free libraries, gymnasiums, playgrounds, etc. The love of moving the healthy body to the rhythm of music in some form of dancing is an in-born peculiarity of the average man and woman; with liquor and indecent music, however, dances may do more harm than bacteria. It is pathetic to see in our large towns and cities young men and women rush to some dance hall to satisfy a desire for amusement.

People who have used up their strength in dancing, late hours, rich foods or have, perhaps looked too long upon the wine when it was food and have let Old John Barleycorn sap their vitality will find a boon in the use of Hacking's Heart and Nerve Remedy. It will dispel "that tired feeling," take away that feeling of depression and nervousness that comes from lowered vitality and brings back the acidly rich, red color to the cheeks. It will make your beauty sleep more satisfying so that you will awake in the morning full of life and hope and more able to carry on with the day's work. The "habits that hurt" can more easily be overcome if you will use Hacking's Heart and Nerve Remedy to strengthen the nerves, to add power to the heart and to revive and stimulate the circulation of the blood. Buy them from your dealer. 50c a box, 6 for \$2.50.

DRUGGIST

A mean girl thief has been found at Nottingham. She was a servant at an institution and robbed a blind and dumb girl of her clothes and when arrested was wearing them. She was described as a thoroughly bad lot. Three months hard labor.

## Why Not Do It?

Why doesn't the Government publish official notices regarding the new luxury taxes instead of having the merchants depend on newspaper reports for their information? is the question which is puzzling many who are in business today. There has not been an official advertisement published so far in the newspapers over any Government signature regarding the provisions of the Act, and it does not seem right for those concerned to be obliged to depend upon newspaper talk for their guidance. Let the information be published in proper form with the seal of the authorities, and then the merchants will get some idea of what's what.

## Must Support Wife

An action for non-support brought by Mrs. Maud Hanlon, of Teeswater, against her husband, John Hanlon, was tried before Magistrate James Tolton, of town, and L. A. Brink, of Teeswater, in the Town Hall, Walkerton, on Tuesday afternoon, and resulted in the husband being ordered by the Court to pay his wife \$10 weekly towards the support of herself and babe, who have been living for the past year with her parents, Mr. and Mrs. Frank Jasper in Teeswater. The wife, who prior to her marriage was Miss Maude Jasper, clerked some years ago in Mr. Appel's general store here. She was married on July 10th, 1918, to John Hanlon, who has been working as a foreman to road building contractors. They resided for a time in Toronto but the wife maintains he doesn't provide her with a home, nor furnish the wherewithal for the support of herself and child. D. Robertson appeared for the wife and Lawyer Klein for the husband at the trial, and the court after hearing the evidence ordered Hanlon to give his wife at least ten dollars weekly in future.—Times.

## Posters Advertise Firebugs Names

Hoping that it will have the effect of reducing the number of incendiary fires in the province, Fire Marshal E. P. Heaton, has adopted the suggestion of fire underwriters to advertise convictions for arson. His first posters, announcing the conviction of John Sheppard and George Wisner at Orillia, who were sentenced to four years imprisonment, are printed in red ink and a number of them have been hung up in Wingham.

"It's a new policy to warn people that the arm of the law is far-reaching. We hope that it will have an effect upon some people, in view of the number of suspicious fires lately," said Secretary Lewis of the Fire Marshal's Department. "We printed a small number of posters. They have been distributed, and the demand from police magistrates, postmasters and public officials is such that we will have to secure more."

## From Cherry-Blossom Land

The Japanese Give Good Example

It is a proverb of Cherry Blossom Land that beauty of face and figure depend on women's health.

What is it that makes our Canadian women often pale, sallow-faced, with dark circles under the eyes, and very often old at forty-five when they should be in their prime?

Women suffer in girlhood from backache, spine-ache and headaches, followed by irregularities and as a result diseases of the womanly organs are more common than any one but a physician in active practice could suppose.

## ONTARIO WOMEN TESTIFY

Chatham, Ont.:—"Dr. Pierce's medicines have been used in my family at home (especially by my father and mother) ever since I can remember. They always proved very satisfactory. Through overwork I at one time became all run-down in health, was on the verge of a complete nervous break-down. I went on ailing for about two years, during which time I suffered terribly. I took Dr. Pierce's Favorite Prescription and it soon built me up in good health and cured me of the nervous condition. I consider it an excellent medicine for the ailments of women."—MRS. CHAS. TITUS, Jr., 23 Duke St.

A sensation was caused in an Oregon court when a witness asked to see a promissory note which was alleged to be a forgery. He tore the signature from the note and swallowed it. The Court summoned a physician and with the aid of a stomach pump the evidence was recovered. The signature was still legible, and later was introduced in evidence.
