PATRIOTISM and PRODUCTION

The Call of the Empire to "the Farmers of Canada

"Approximately twenty million men have been mobilized in Europe. A large proportion of these have been withdrawn from the farms of the countries at war. Even in neutral countries large numbers of food producers have been called from the land to be ready for emergencies. It is difficult for us to realize what will be the effect on food production through the withdrawal of several million men from all the great agricultural countries of Europe. These millions cease to be producers, they have become consumers, worse still, they have become destroyers of food."

ATTEND

YOUR

CONFERENCE

HON. MARTIN BURRELL, Minister of Agriculture.

Britain must have food-food this year, and food next year. Britain is looking to Canada to supply most of that

food. We are sending our surplus now, but we must prepare for a larger surplus this year and next year. Patriotism and Production must go hand in hand.

Because of this need of the Empire for more food, and the call to Canada in that need, the Canadian Department of Agriculture has arranged for a series of

Conferences throughout the Dominion, with the object of giving suggestions as to the best ways of increasing production of the particular products needed at this time.

At these Conferences agricultural specialists, who have studied agricultural conditions and production throughout the world, and the best means of

increasing agricultural production in Canada, will give valuable information and suggestions to the farmers, live-stock men, dairymen, poultrymen, vegetable growers, and other producers of this country. The Canadian Department of Agriculture urges you to attend as many of these Conferences as

possible; also to watch for other information on the subject that will be given in other announcements in

Put Energy into Production of Staple Foods

The Government does not ask farmers to work harder, so much as it urges them to make their work more productive, and to produce those staple foods that the Empire most needs and that can be most easily stored and transported.

Europe, and particularly Britain, will need the following staple foods from Canada more than ever before:

Wheat, oats, corn, beans, peas. Beef, mutton, bacon, and ham. Cheese and butter. Poultry and eggs.

Vegetables, such as potatoes. onions, and turnips.

The larger the yield of these staple food products, the greater the service to the Empire. Germany in the last

sented.

in fire prevention and control,

ten years has doubled the average yield of the majority of her field crops largely through better seed, thorough cultivation and use of fertilizer. But in making your plans, don't let your enthusiasm and loyalty make you attempt more than you can carry through. Millions of bushels. instead of millions of acres, should be the aim of Canadian farmers. And while the Empire's armies are busy putting down German Militarism, let us at home appropriate the best of Germany's agricultural methods for the Empire's advantage.

The Government urges farmers, stockmen, dairymen and other producers to make a wider use of the Free Bulletins issued by the Canadian Department of Agriculture.

This Department has issued over two hundred bulletins. A list of bulletins is printed in a booklet entitled "Publications Available for Distribution."

Clip out, fill in and mail the coupon below and get this booklet. Then select the bulletins that will be of value to you. Mail your coupon right now. Address the envelope to Publications Branch, Canadian Department of Agriculture, Ottawa. Do not put a stamp on the envelope. No stamp is necessary. Your coupon will be "On His Majesty's Service."

Give expression to your desire to assist the Empire in this crists by co-operating in this great "Patriotism and Production" movement.

GUARDS AT FORT WERE FROZEN

The Soldiers flad a Hard Time—All Order Was Abandoned When Men Struck Ice—Many Needed Medical Attention.

With the wind blowing a perfect gale this morning, and driving the blinding snowlakes into the face, the guard of the 14th doing service at the Fort left Artiflery Park to Up to last evening recruiting in the five are between the ages of eighteen and twenty-one.

Lieutenants W. W. Wallace and G. E. G. Craig, have gone to Lindsay to aid in drilling the recruits there and sixty-six privates. Recruits keep here.

at the Fort left Artiflery Park to relieve the guard which went enduty yesterday morning. Tramping from the barracks to the water from the barracks to the water from the barracks to the water from the sixty-four soldiers struck the ice, all order had to be abandoned and every man struck out to make his own way through the storm and over the trackless, snow, cowered, ice field. So violently, was the wind driving the dropping in every day.

Capt Sergeon A. E. MacColl, M.D., is able body of men under his comman exceedingly busy officer these days conducting medical examinations.

The Forty-Ninth recruits are as trackless, show covered, ice field. So violently was the wind driving the thick snow that the men lost all idea of their location several times, and with the greatest possible difficulty managed after a hard light to find the shore on the other side. A number of the contractions of their location several times are as the contractions of the contractions.

conducting medical examinations, recommendations, mimor operations, and taking the declarations or attestations of the volunteers.

Capt. Hudson, has in his detachment a veteran of several wars, Mr. Hugh Campbell, who fought in the Major A. E. Bywater, Trenton Capt. R. Vanderwater, Foxboro African war.

Most of the recruits are from this city and near vicinity. Nineteen out of the seventy-seven are married men.

Lieut. W. W. Walface,

The Forty-Ninth recruits are in the shore on the other side. A number of the men were frozen.

The way up the steep hill in the direction of the Fort was a hard one, and being compelled to carry rille and bayonet, with the heavy winter overcoat, the men had to fight every inch of the way to make any progress at all. The guard at last reached the Fort very much delayed, and with many of the men suffering from hard nips from Jack Frost, in the face with some, on the cars with others, but all of them in a very exhausted and cold condition, when

Deseronto ence, many of the guard had to regiment is as follows—
