

## NOW IS THE TIME

To send some Zam-Buk to your soldier friend at the front. With the coming of cold weather, the men in the trenches all suffer, more or less, with chapped hands, cold cracks, chilblains and cold sores, and the soldier who has some Zam-Buk on hand to apply immediately any of these painful ailments make their appearance, will be saved hours of suffering.

Pte. E. Westfield of "C" Company, 3rd Worcester Regiment, writes: "We wish our friends would send us out more Zam-Buk. It is splendid for sore hands, cold cracks, cold sores, etc.

Nothing ends pain and heals so quickly as Zam-Buk, and being germicidal, it prevents blood-poisoning.

A LOP-SIDED EXCHANGE

Recently the British Government announced that an agreement had been reached with the German Government for the exchange of civilian prisoners over 45 years. By the repatriation, the British will surrender about 7,000 Germans and receive in return about 600 Britishers. From a numerical point of view, that is a tremendous concession and very probably will work out to Germany's advantage in other ways. For instance, Germany is hard pressed for labor. It could place the repatriated civilians at work which would relieve others for army or auxiliary services. In Brandenburg men between 55 and 60 are to be called to the colors. The Berlin Tageblatt vouches for that. Is it not likely that many of the restored Germans will be found working against the Allies? It is true that the British government has stipulated that none who wish to remain shall be forced to go, and perhaps many of the interned prisoners in Britain may prefer not returning to the Fatherland. But the heavy odds paid to get back the British civilian prisoners illustrate what British citizenship means. Every possible protection is thrown around British subjects in foreign, and even enemy, countries. The Germans will, in a way, be rewarded for their cruel, harsh treatment of prisoners-of-war. The starving, beating, and dragging of prisoners in the German camps has produced horror in countries unaffected with Teutomania, and made the British Government willing to pay a heavy price to liberate the sufferers. Thus German frightfulness scores temporarily, but finally will have to face a reckoning that will settle it decisively.

The co-operative selling of wool was undertaken in two counties of Nova Scotia during the present year, i.e., Antigonish and Guysboro, in both of which counties the Department has District Representatives who organize the work. In the county of Guysboro merely a beginning was made, the total sale amounting to a little less than 2,000 lb. In the county of Antigonish wool was sold co-operatively last year, and this was the second year. The wool from both counties was marketed jointly and amounted to 17,388 lb. The price paid the co-operators was 44 cents to 40 cents according to the quality of the fleece. The average price received was 41 1-2 cents per lb including black fleeces, tags and a few reject fleeces. The expenses in connection with the sale, insurance, packing and loading was slightly over 1-2 cent per lb. This included 100 wool sacks which were brought outright, and which may be had by members next year for bringing in their wool.

The county representatives who took charge of this work in Nova Scotia were Dr. Hugh MacPherson, Antigonish, and A. B. MacDonald, Guysboro.

The losses of the Germans in the first four months of severe fighting, September, October, November and December, 1914, were 842,000 as shown by the official German lists. As for the British losses at the Somme in the four months period of July, August, September and October, 1916 were only 415,000. It is clear that they cannot be excessive.

This comparison can be even more clearly shown by putting the losses in tables. Thus:

German Losses 1914	
September	125,400
October	279,800
November	235,300
December	201,900
<b>Total</b>	<b>842,400</b>

British Losses 1916	
July	59,000
August	128,000
September	120,000
October	108,000
<b>Total</b>	<b>415,000</b>

For the first four months of active fighting the German loss was at the rate of 210,000. The British monthly rate for the Somme has been 104,000. In the first 5 months of the war German casualties amounted to 1,005,000, as shown by the German lists up to date the British total loss has been 1,119,000. Thus Germany lost in five months is almost as many men as Great Britain has lost in 27.

The beautiful timid partridge that formerly was one of the fascinating features of the innocent wild life of our woods, is now almost extinct, and will be soon unless a close season is put into force. Let our legislators take this up and make a close season for five years at least.

### FRUIT FOR SOLDIERS

The Ontario Fruit Division, under the direction of Mr. P. W. Hodgets, Provincial Director of Horticulturist, is sending 20,000 boxes of apples to the soldiers at the front. The apples are principally Spys, Baldwins, Golden Russets and other hardy varieties. Two cars have already gone forward. These apples are being distributed by Mr. R. Read, London representative of the Ontario Government in Great Britain.

Thirty thousand gallons of peaches and fifteen tons of pure jams are being prepared at the by-products department of the Vineland, Ont., by order of the Ontario Government for the hospitals at the front.

The fruit growers of St. Catharines and surrounding district are again donating canned peaches for the soldiers at the front. Last year 20,000 quarts of canned peaches went forward, and it is expected that this record will be surpassed this year.

The fight between the Irishmen was waxing fast and furious. It had progressed to the extent that each had forgotten what it was about originally, and they were wholly oblivious of the gathering crowd until an urbane and genteel person in a frock coat put in:

"Come, come, my man!" he said, gently plucking Casey by the sleeve "You don't want to fight—I can tell it by your looks! Your face is too benighted."

"Two be nine! Two be nine, is it, ye spalpeen?" bellowed Casey. "Me face two be nine, is it?"

And wallop went the gent in the frock coat into the muddy gutter.

### A TALK ON RHEUMATISM.

Telling How to Actually Cure This Common and Painful Malady

This article is for the man or woman who suffers from rheumatism who wants to be cured, not merely relieved—but actually cured. The most rheumatic sufferer can hope for in rubbing something on the tender, aching joint, is a little relief. No lotion or liniment ever did or can make a cure. The rheumatic poison is rooted in the blood. Therefore rheumatism can only be cured when this poisonous acid is driven out of the blood. Any doctor will tell you this is true. If you want something that will go right to the root of the trouble in the blood take Dr. Williams' Pink Pills. They make new rich blood which drives out the poisonous acid and cures rheumatism to stay cured. The truth of these statements has been proved in thousands of cases, throughout Canada, and the following cure is a striking instance. Mr. Henry Smith, St. Jerome, Que., says:

"For upwards of a year I was a victim in a most painful form. The trouble was located in my legs and for a long time I was so bad that I could not walk. The suffering which I endured can only be imagined by those who have been similarly afflicted. Doctors treatment did not help me and then I began trying other remedies, but with no better results. Finally I was advised to try Dr. Williams' Pink Pills, and although I had begun to lose faith in medicine I finally decided to give the pills a trial. I am very grateful now that I did so, for after taking eight boxes of the pills the trouble completely disappeared. I was free from pain and could walk as well as ever I did in my life. I have since taken the pills occasionally as a precautionary measure, and I cannot speak too highly in their favor."

Dr. Williams' Pink Pills cure all the troubles due to weak, watery blood or broken down nerves. You can get these pills through any dealer in medicine, or by mail postpaid, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## SCROFULA

Scrofula disfigures and causes life-long misery. Children become strong and lively when given small doses of Scott's Emulsion every day. The starved body is fed; the swollen glands healed, and the tainted blood vitalized. Good food, fresh air and Scott's Emulsion conquer scrofula and many other blood diseases.
