INCIDENTS OF THE DAY.

The system, like the clock, runs down. It needs winding up. The blood gets poor and scores of diseases result. It needs a tonic to enrich it.

A certain wise doctor, after years of patient study, discovered a medicine which purified the blood, gave tonic to the system, and made men—feel like new. Ho called it his "Golden Medical Discovery." It has been sold for years, sold by the million of bottles, and people found such satisfaction in it that Dr. Pierce

This averment was ardently confirmed by our legal luminary whose mendacity will, of course, be overlooked as it was very requisite in order to make the affair financially profitable. The great apocatypse of musical talent was not so startling, but in justice I must say that it greatly surpassed the home talent. The program was lengthy and rendered with great precision, while the vocal selections, sensuous and varied, manifested decided taste

while the vocal selections, sensuous and varied, manifested decided taste on the part of the singers and a nonapplication of anything puerillous or insipid. The chair was ably filled by Dr. Preston, M. P. P., who at the close made a few well-chosen remarks concerning the physical and constitutional benefits to be derived from ath letic exercise. The proceeds which were in the neighborhood of \$75 will go towards paying off the debt contracted by the club in recent encounters with their more fortunate opponents.

There is nothing, to my mind, more pleasant than to see young people enjoying themselves. It always makes my old heart rejoice and turns my thoughts back to the days when I was young. Many boys have become agressive and callous simply from the fact that they have never been subjected to the softening and endearing influences of the fair sex, while others become reticent and to a superficial observer might possibly appear shy, but a close observation will sometimes reveal the fact.
