OUTSIDE MARKETS.

HENRY CLEW'S REPORT.
Henry Clew, in his weekly letter to The Planet, says:—

More now depends upon the harvest than upon any other single element. The outlook in this respect, continues encouraging. Corn, the pivotal crop this year, promises well; and, if conditions continue favorable, we may have a bumper crop, the average being the largest on record and condition above the average. Even if some damage should follow later on we shall still probably have an average crop, and the season is not so far advanced that a repetition of last year's damage is practically impossible. It was about this time in July, 1901, that the drought did its work, and the first correct estimates of damage were made public. The crop situation now is, therefore, in striking favorable contrast compared with 1901, except as to wheat, which proved a bumper crop. This year, however, we are

DANGER SIGNALS.

No engineer would be mad enough to run by the flag which signaled danger. What the danger was he might not understand, but he would take no chances. It is different with the average man or woman. They attempt constantly to run by the danger signals of Nature and that attempt costs thousands of lives every year. When the appetite becomes irregular or entirely gives out, when sleep is troubled and broken, when there is a loss of flesh, when there is a constant feeling of dullness and languor, Nature is hoisting the danger signal. The stomach and its allied organs are failing in their work and the body is losing the nutrition on which its strength depends.

Such a condition calls for the prompt use of Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition, purifies and enriches the blood and builds up the body with sound, solid flesh.

Your kindness to me I can never forget," writes Mrs. Josie E. Clark, of Enterprise, Shelby Co., Mo. "I cannot express half my feelings of gratefulness to you. I had despaired of ever getting well. I had been in bad health for twelve years. Had aches all through me, numb hands, cold feet, and everything I ate distressed me. I could not sleep. I had taken six bottles of Dr. Pierce's Golden Medical Discovery, and my health is now good. You have my honest recommendation to all sufferers. I think there is no medicine in the world as good as Dr. Pierce's."

If constipated use Dr. Pierce's Pleasant Pellets. They cure constipation, biliousness and sick headache. They do not produce the "pill habit."

promised wheat in plenty and to spare for export. Oats are in satisfactory condition, and the cotton crop promises a large yield, even if early estimates have to be modified. So far, then, the indications are that we shall have abundant harvests, and a good foreign demand for our surplus. This is of vast importance to the business community, for it secures at least one more season of national prosperity, which there were not a few reasons to believe had, for the present at least, reached the zenith. Another crop failure would certainly have precipitated

MONTREAL LIVE STOCK.

Montreal, July 22.—There were 350 head of butchers' cattle, 75 calves and

Every week now serves to reduce the possibilities of such disaster and warrants a corresponding growth of confidence.

taken regularly will keep the stomach in good condition, the blood pure, and the complexion clear. All druggists sell it.

600 sheep and lambs offered for sale at the east end abattoir yesterday. The heavy rains did not prevent the butchers from coming out in large numbers, and good cattle were in demand, at higher prices than prevailed last week. Mr. G. Martel paid 6 3/4c per lb. for a pair of choice cattle, and 6c per lb. for five others. About 35 head of pretty good grass fed steers were bought for shipment to Great Britain at from 5c to 5 1/4c per lb. and the butchers paid about the same rates for good animals; common stocks sold at from 2 1/4 to 3 1/4c per lb.
