### THE COOKBOOK.

To keep lemons as well as to improv their flavor put them into more than enough water to cover them and change

it every day or two. Salt fish is more quickly freshened and is also said to be more delicate in flavor if soaked in milk instead of water. Milk that has begun to turn is just as good as that which is perfectly sweet.

Woman is often referred to by man

Woman is often referred to by man as "doubling his joys and halving his sorrows." That may be complimentary but it would seem to be rather hard on the woman. For in plain terms it means that where things are going well with the man his wife makes them go better. But when things are going ill with him, he expects the wife to share half his burden. And there's more truth than poetry in this presentation of masculine telfishness. Men don't appreciate the fact that the strain of motherhood is a burden bigger than all loads that rest upon male shoulders. They see the wife grow thin, pale, nervous and worn without a thought that she is over-burdened. Among the pleasant letters received by Dr. Pierce are those from husbands who have waked up before it was too late to the crushing burdens laid upon the wife, and in search of help have found Dr. Pierce's Favorite Prescription a restorative which has given back to the mother search of help have found Dr. Pierce's Favorite Prescription a restorative which has given back to the mother the health of the maiden and the maiden's happiness. Men and Women Rushing to Eternal Ruin, Says Prophetess Ellen White.

Another Startling Warning That Some-thing Decisive Will Soon Take Place.

Battle Creek, Mich., Dec. 4.—Mrs. Bilan W, White, the prophetess of the Seventh Day Adventists, has written another warning to her people, to appear in the official organ of that denomination, printed in this city. She says "A crisis has arisen in the government of God on earth. Enmity to God has struck its roots deep in human hearts. It has become widespread, both in the world and in the professed church of Christ.
