New, Spare-time Profession for Men and Women—One Man Makes \$3500 in Six Months.
Owing to the large number of new motion picture theatres which are being opened throughout the country, there is offered to the men and women of today, a new profession namely, that of writing moving picture plays. Producers are paying from \$25 to \$150 for each scenario accepted upon which they can build a photo play.
\$3500 in Six Months.
As it only requires a few hours' time to construct a complete play, you can readily see the immense possibilities in this work. One man who gave the idea a tryout, writes that he earned \$3500 in six months. It is possible for an intelligent person to meet with equal success.

feature of the business which appeal to everyone, is that work may be done at home in spare time. No literary ability is required and women have as great an opportunity as men. Ideas for plots are constantly turning up, and may be put in scenario form and sold for a good price.

Opera House

"The Girl of the Golden West."
Tonight "The Girl of the Golden West" will be produced by the Royal Players by special request. The fame of this play will last forever for it is in a class by itself to such an extent that it has been placed in grand opera. The Royal Players in producing this play have the expectation of giving one of the best performances ever seen in this section of this Western romance for Miss Edythe Elliott excels in the character of Roxie, the wild western flower growing up among the rough miners of California's early days. Her interpretation has been commented on by the Victoria press as a revelation of strength and finish, being the most natural piece of acting ever seen in Victoria.
The entire company are all most suitably cast and tonight's play is the crowning effort of the Royal Players' engagement.

**Practical
Fashion Hints**

Women really look better when they realize that their underwear is as dainty and becoming as their outer garments. The modern petticoat, which must of necessity be very thin and cling to the figure, is being made up in some unusually effective materials just now. Crepe de Chine, hand embroidered mousook flouncing and fine linen are among them. No. 8105 is a model that would make an excellent Tango petticoat, if fashioned in crepe de chine with a ruffle of lace or chiffon outlined by a tiny line of flat chiton roses. It is also a good design to wear under summer dresses, fashioned of hand-embroidered mousook flouncing with insets of lace, if desired. It is a two-piece skirt with the fullness arranged in gathers or darts at the top and with a slightly gathered flounce. For size 24, 2 1/2 yards of 36-inch material will be required. Pattern is cut in seven sizes, 22 to 34.
THIS IS A PERFECT PATTERN.
Be sure to give right size, passing the tape tightly around the smallest part of the waist and loosely around the widest part of the hips.
It may be obtained by filling out the coupon and enclosing 15 cents in stamps or coin, to the Pattern Department of this paper.
The pattern may be obtained by sending name and address, pattern No. and size and fifteen cents to DAVID SPENCER LIMITED.

No trace has been found of the three Canadian Northern surveyors who were drowned in the Thompson River last Wednesday. It is not likely that their bodies will be recovered for some time.

Four of the most important chiefs of the Maoris arrived in Vancouver yesterday on the Niagara, from Auckland, on their way to London, England, to have an audience with King George concerning affairs of state. The most notable and picturesque of the four is Te Rata Mahutu, of the royal Maori blood, king of the Walkate Maoris, who inhabit the southern island of New Zealand.

JAPAN WOULD NOT ACT
Washington, April 29.—The Japanese Government, it has developed, was asked and declined to act for the Huerta administration through its diplomatic representatives in Washington and its consuls in the United States, prior to Mexico's application to Spain to perform this mission, which was accepted.

**Hear Them All Then
Hear the Edison!**

You will be more satisfied to take the "EDISON"

Every instrument is of Cabinet design. Each case is a fine example of the cabinet maker's art. Rare woods are used in their construction. The finish is beautiful.

We have been in business a long time, Mr. Reader. No one knows the talking machine line better than we do. We've watched the Edison development until today we unhesitatingly claim it to be the best phonograph on the market.

The Records are of an Entirely New Material
—manufactured under a secret process from a chemical compound of such great density and hardness that the most minute wave can be engraved upon it and no amount of wear can efface or distort it.

Let us have the pleasure to demonstrate this wonderful toned instrument to you and your family.
