## Keep Your Display Windows Free from Frost.

For preventing the Frosting of Display Windows in winter time there is nothing simpler or more effective than

### The Air Blast of an Electric Fan directed against the glass.

The philosophy of the thing is plain. The evaporative effect of the air current simply prevents condensation of moisture upon the window and affords relief from the annoyance which is generally sought but only imperfectly attained through various awkward means.

### Superior Merit Alone

Made from the finest, purest and most carefully selected teas, OLD HOME is precisely what a perfect tea should be—full flavored, rich and exquisitely mild.

The SURE raising powder to eight parts of the household flour.
