#### THE NEW MODEL TRIUMPH

ADDING AND COMPUTING MACHINE, \$45.00.

Combines all the features of the high-priced, non-listing Adding Machine, together with ease of operation, high speed and portability.

The TRIUMPH Adding Machine has a capacity of 999,999.99 and can especially be adapted for computation in fractions, inches, decimals and English currency.

It is not only an Adding Machine. It is a Computer of the highest degree. The machine multiplies, divides and subtracts with the same ease that other machines add.

The TRIUMPH has a checking device that makes it indispensable to the man who counts his number of operations. This is an exclusive feature found only on the TRIUMPH.

It is operated by pulling a chain with the finger. It thus brings the possibility of error to a minimum. In short, the TRIUMPH offers simplicity, accuracy, speed, portability and moderateness in price; a group of features that no adding machine has yet presented. Come in and try it. No obligation to buy. We will be glad to demonstrate it.
