Boxing Instructor United States Naval Academy, and Coach of American Olympic Boxing Team, 1920; Coach Inter-Allied American Boxing Team, Paris, France, 1919.

July 2nd is going to be a very said of can say I have seen many of them, day in the young life of Georges Carpentier, if expert opinion—that is the consensus of expert opinion—is worth as much as the hole in a doughnut. By an immense majority the knights of the typewriter have already veted the Frenchman a nice round-trip ducket to Dream Street, to be delivered on the eventful afternoon he is to grasp the hand of World's Champion Jack Dempsey in a 24 foot ring over Jersey way. There are few now grinding out stories on the big fight who don't believe Georges will be wallowing in the rosin of the ring before the dezen rounds slip away. Class me among the few. My prediction, guess, opinion or whatever you want to call it is that the the the total and the street and the specific must know, they declare that he was away. Earl Grey, the Governor General of Canada, one of the autumn only require to be abown the right thing and they will do it. I attended the well-advertised meeting in the Casino and they will do it. I attended the well-advertised meeting in the Casino and they will do it. I attended the well-advertised meeting in the Casino and they will do it. I attended the well-advertised meeting in the Casino and they will do it. I attended the well-advertised meeting in the Casino and make an address, and which the Governor was to presside the flow with do it. I attended the well-advertised meeting in the Casino and they will do it. I attended the well-advertised meeting in the Casino and the stream they will do it. I attended the well-advertised meeting in the Casino and make an address, and which the Governor being flavor the Governor being flavor to the autumn owing to so greased lightning the Frenchman can the remaining the fore they do carry! Truly Carpentier is a shart that the reason is that there have been sharpshooter of the first rank. And the best part of his work is that the feeting in the rosal of the submit of the public does not want to waste its time. Life is short and time is feeting in the rosal

sition that made an instant hit with all with whom he came in contact.

Carpentier is the most serious individual you could find, loves boxing and has made it a life study. That's why he has obtained such phenomenal results. Carpentier is a clean, keen thinker, one who is never idle. Every second he is in the ring teems with action. He moves in and out with action. He moves in and out with a foundation upon which to base my belief that Carpentier will go the limit, but don't take it for granted after punches from every conceivable angle and packs a dream-inling kick in pentier to jolt the erown from the

ccurate hitters I have ever seen, and the edge.

Class me among the few. My prediction, guess, opinion or whatever you awant to call it is that the idol of France will be in there on his feet at the end, and that the struggle will fall to bring the decisive result for which all fandom clamors. Utah Jack, I will ception—the affair with Bill Brennan venture to say, is not going to any and the struggle will fall ception—the affair with Bill Brennan venture to say, is not going to any and the same among the few. My prediction, guess, opinion or whatever you is going to be knocked kicking before General of Canada, one of the own standing men of the Empire, intended to be a standing men of the Empire, intended to be a standing men of the contract of the contract

ler, the fighter, the soldier, less capable Billy Miske, poor old Jimeman and hero of France, Flynn and a few others, over the prosan esteemed friend, but in trate forms of whom Dempsey has

endeavor to prevent his friendship from running away with my judg-ment.

I first met Cappentier in France a few months after Uncle Sam had drawn on the mitts for his part in the seance with Kaiser Bill. I was there with the Twenty-ninth Division, of which I was Boxing Instructor. Atter our first meeting in Paris there were many things that brought us together. During the great Inter-Allied Games, or rather during the preparation for that event, Carpentier came around often to the gymnasium where I was training the American boxers, who later won the Inter-Allied Championships, to work out with our boys, and it was his earnestness, deaire to help even the most insignificant entrant in the tourney, and quiet disposition that made an instant hit with all with whom he came in contact.

I deavor to prevent is friendship finished fighter that Carpentier is with any of these men.

Then again, Dempsey is considered as revived at, I, who was not one of the smaller committee, said that it was not often that a man of such outstanding prominence as Earl Grey came to Newfoundland, and that it was not often that a man of such outstanding prominence as Earl Grey came to Newfoundland, and that it was not often that a man of such outstanding prominence as Earl Grey came to Newfoundland, and that it was not often that a man of such outstanding prominence as Earl Grey came to Newfoundland, and that it was not often that a man of such outstanding prominence as Earl Grey came to Newfoundland, and that it was not often that a man of such outstanding prominence as Earl Grey came to Newfoundland, and that it was not often that a man of such outstanding prominence as Earl Grey came to Newfoundland, and that it was not often that a man of such outstanding prominence as Earl Grey came to Newfoundland, and that it was not often that a man of such outstanding prominence as Earl Grey came to Newfoundland, and that it may obtained in the tour banking prominence as Earl Grey came to Newfoundland, and that it may obtained in the smaller committ

thing that's beautiful in a fighting man—a finished and polished piece of spectacular fighting craft.

This French boxer is marvellously quick and clever and one of the most the man I believe will emerge with the committee of large the man I believe will emerge with the man I believe will emerge with the committee of large the man I believe will emerge with the ma any kind she told the committee of ladies all that was required moitting not the slightest detail. I was present and took down page after page of notes. Mrs. Harvey, and the ladies with her, certainly did great work about the ball. The Reid Co. had their electricians to electrify the British Hall and on the night of the eatables and knew what to do had feir electricians to electrify the British Hall and on the night of the ball it looked like a fairy palace. I had forgotten, till the eve of the ball, to send Sir Robert Bond an invitation, but I then did so and he was there in full regalia, as were all the others entitled to wear any. I appointed all my committees. One thing occurred which is too good not find the tower to welcome Earl Grey, someone asked, Who is to receive Earl Grey?" I said, "Well, considering it is my ball, I am the hall of the tower to welcome Earl Grey, someone asked, Who is to receive Earl Grey?" I said, "Well, considering it is my ball, I am the hall of the tower to mention scheme. The joke was to make a ball entirely gotten up by myself appear a public demonstration in favor of Earl Grey. No one was an afterthought at the last moment, I thought that this was rich. I had been put on the committee by me as an afterthought at the last moment, I thought that this was rich. I had been put on the committee by me as an afterthought at the last moment, I thought that this was rich. PYORRHEA.

Pyorrhea is the most de-structive, the most difficult to treat, yet one of the common-est of all the diseases of the est of all the diseases of the teeth. It is present in the mouths of countless thousands of adults who fondly think their teeth are in perfect condition. It progresses slowly, and in its early stages, painlessly. The gums become soft and bleed easily, then they grow sore and become inflamed. Pus forms at the roots of the teeth and they loosen in their sockets. When the disease reaches this stage it affects the general health and usually extraction is the only remedy.
