THE HISTORY OF COCKTAILS. [London Daily Chronicle.] Cocktails, now under medical and

social condemnation, are of such indi-genous American origin that they have been traced back to the Aztecs, whose

name for them was Xochitil, of which

cocktail is a corruption. But more that

a century ago Washington Irving could only describe his countrymen's "cock-tail, stone fence and sherry cobbler" as

'recondite beverages." Yet Thackeray

makes one of his Irishmen ask, "Did ye iver try a brandy cocktail?" and the

name as a quickly drunk stimulant ap-

pears also in "Tom Brown's School-days." It is from this "pick-me-up" sense as a dog cocks its ear or "gets

its tail up" that the name has probably

The custom of touching glasses be-

idea of safety which led men to shake hands with the right hand—as an assurance that they were concealing no

taking their positions and drink a glass of wine supplied by the seconds. In order to make certain that this wine had not been tampered with, one glass

had been made to poison the wine of the duellists each of them would be equally affected.

The practice, reminiscent of the daye f the Borgias, passed out with the

custom of the duel, but the habit of

touching glasses or holding them up as

if preparatory to touching them, re-mained as a silent reminder of the time

went always armed and prepared for

Chicago, Aug. 10.—Opening: Wheat—Dec., \$1 285%.
Corn—Sept. 58%c; Dec., 58%c; Oats—Sept., 37%c; Dec., 40%c.

Oats—Sept., 37%c; Dec., 40%c.

Chicago, Aug 10.—Government confirmation of big damage to crops led to higher prices in the wheat market today. Buying was general at the start on the consequent bulge, in values; however, profit-taking sales broadened out. Initial quotations, which varied from 1c to 2½c higher, were followed by a moderate steback, though not sufficient to wipe out all the gains.

Evidence of increasing receipts weakened corn. After opening ½c to ¾c higher, the market receded to well kelow yesterday's finish.

Oats paralleled the action of corn, starting xc to ½c higher, and then

undergoing a material sag.
