## Walkerville Woman Gets a Big Surprise

"Tanlac gave me health and happiness a year ago, after it lcoked like I never would be well again, and I haven't stopped praising it since," declared Mrs. Maude Whitehead, 20 Victoria road, Walkerville, Ont.

"My appetite was so poor I often went all day without food, and was so weak and run-down a few steps over to the store would exhaust me, and get me out of breath, until I thought I would drop in my tracks. I feared a nervous breakdown, too, for I would tremble all over, even if the doorbell rang at night. Little noises like a curtain rustling would

noises like a curtain rustling would sale everywhere.-Advt.

# Remove the Film

## If you wish pearly teeth

You see prettier teeth now wherever you look. They glisten, they look clean.

The reason lies in a new cleaning method. Millions now fight film.

You want the attraction, the added protection that it brings. Then won't you make this simple

## You must fight film

test to prove that you can get them?

It is film that makes teeth cloudy. It is film that ruins teeth. If you want prettier teeth and safer teeth you must fight that film.

Film is that viscous coat you feel. It clings to teeth, enters crevices and stays. It becomes discolored, then forms dingy coats. Tartar is based on film.

Film also holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. Under old methods, few escaped those troubles. And beautiful teeth were seen less often than now.

## A new situation

Now there's a new situation.

Dental science has found two ways to fight film. One acts to curdle film, one to remove it, and without any harmful scouring.

In fairness to yourself, see and feel these Pepsodent effects. Send the coupon for a 10-Day Tube Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. You will be amazed and de-
