Government to Aid the Construction of a Railway to Open Up Kootenay.

Liberal Estimates Exceed Those of Conservatives-Foster's Narrow Escape.

(From Our Own Correspondent.) OTTAWA, Sept. 12.—There is every reason to believe that the government will render substantial aid to the Canadian Pacific to build a railway from under way. The government realizes that if the Dominion is to benefit from the mining development in British Columbia, the Kootenay country must be tapped by a Canadian road. The loan will probably exceed five millions, an amount which the contractors intend

asking parliament to loan them. A Conservative caucus will be held on railway servants in the interests of themselves and the travelling public remainder of the session. Ex-Finance Minister Foster was near-
