**CATARRH--A New Treatment.**  
From the Weekly (Toronto) Mail, Aug. 27.  
Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the Dixon treatment for catarrh. Out of two thousand patients treated during the past six months fully ninety per cent have been cured of this stubborn ailment. This is none the less startling when it is remembered that not five per cent of patients presenting themselves to the regular practitioners are benefited, while the patent medicines and other advertised cures have generally been found to be of no avail. Starting with the claim that no cure at all is possible, the most scientific men that the disease is due to the presence of living parasites in the tissue. Mr. Dixon at once adapted his cure to their extermination--this accomplished, he claims, the catarrh is practically cured and the permanency is unquestioned, as cures effected by him two years ago are cures still. No one else has ever attempted to cure catarrh in this manner, and no other treatment has ever cured catarrh. The application of the remedy is simple and can be done at home, and the present season of the year is the most favorable for a specific and permanent cure, the majority of cases being cured at one treatment. Sufferers should correspond with Mr. A. H. DIXON, 307 King street east, Toronto, Canada, and enclose stamp for his return on catarrh.
