Toronto. FIELDS OF FIFTY THOUSAND ACRES.

Straight Strings of Fences Over Eight Miles Long in Texas.

Very few people at a distance, in thinking of western Texas, understand that nearly the whole of it is at present fenced up in mammoth pastures, yet such is the case. Many of them are larger than ordinary counties, and ne of them embrace large parts of three or four counties.

Just west of Belcherville, Tex., come the Silverstine, the Ikeard and the Worsham pastures. This latter contains 500,000 acres, and has one line of nce 23 miles long. Pastures of about this size continue in almost unbroker n until we reach Armstrong County. There we find what is known as the Goodnight ranch, the southern boundary of which is a little string of ence 83 3m3iles long. Charley Goodnight, as the owner is familiarly known, is considered one of the richest men in the panhandle, but I really feel sorry for his boys if he ever sends them out on a hot afternoon to stop hog holes in that line of fence. It is hardly likely that this is the case, however, as all fences in that country are built to turn cattle and without reference to hogs. There is a little railway station called Goodnight, which consists of the Goodnight residence and the depot. Mr. Goodnight lives in almost baronial style. His park contains deer, a drove of elks and one of the few herds of

buffalo in the United States. Another fair sized holding of land is that of the Espinella Cattle Company This contains over 1,500,000 acres and Emma Counties. If the land were in the form of a square, it would be about 50 miles each way. The Matterdere is but still includes rather more

than 1,000,000 acres. These are owned by syndicates, with headquarters in London, and they are only two selected at random, out of a large number. They have had their bearing on State politics. If it were not for the railroad commissioners, the uniform text-book bill and the alien landholder question Texas politics would not

The largest of these alien land holdings belongs to what is called the Capicapitol at Austin burned down, and it was decided to build another on a mag nificent scale. An English syndicate therefore they received 3.000.000 acres of public lands. Does the reader realize how big 3,000,000 acres of land is? Imagine a slice of land 24 miles wide and extending acros sthe State of Missouri at its northern border. Such a strip would include the whole northern tier of counties and would be larger than several States of the Union.

This would be about the extent of the Capitol syndicate's pasture. Few people have any idea that there is such a thing as a single pasture, in one body and within one fence, larger than some States of the Union, yet such is the fact. More than that, it is owned by a foreign syndicate. It takes in half of Deaf Smith County and parts of several

Another large pasture is that of the X. I. T. Cattle Company. It begins with the Colorado line and extends several counties back this way. The Fort Worth & Denver railroad runs through counties back this way. The Fort Worth & Denver railroad runs through it. Some idea of its size may be gathered from the fact that the regular night express train enters on the south side of t ed from the fact that the regular night express train enters on the south side of the pasture at 11.05, and after continuusual."

"Yes, yes; go on," said his friends.

"Well, one night I was about starting down to meet you fellows at Donovan's saloon as usual, when Martha said: 'Just step downstairs a minute, Judge.' So I went down with her into the basement sitting-room, and I hope to die if the carpet wasn't taken up, the floor sprinkled with sand and a sort of temporary bar erected in the corner.

There was a balf a dozen small tables.

playing the long side on the upturn have liquidated, and selling to-day was a good deal better than the buying. Our advices point to only a moderate crop of winter wheat and an unusually light reserve in farmers' hands. Provisions—Much less active and ruled steady. There was but little selling by packers, and scalping traders easily absorbed the scattered offerings. Receipts of hogs were under the estimates and local traders were disposed to play for a rally. There were no new features and the week's market will depend largely on the receipts of hogs.
