

"Was Fading Away"

A Young Woman—Scarcely Thirty—Seemed to Be Dying on Her Feet.

Dr. Hamilton's Pills Cured

"I think it should be the duty of the schools to teach children how to keep well," writes Miss Annie E. Naydon, a well-known and highly esteemed resident of Bristol. "Ignorance of the laws of health and the use of improper remedies destroyed my vigor, and led me to the verge of invalidism. I was as a girl ruddy and strong. Nothing seemed to affect me until I was about thirty. Then gas began to form in the stomach. I suffered with bloating and a general failure in strength set in. If I went upstairs my breath hurt. My system was very irregular, and until I grew pretty bad I didn't pay much heed to my condition. Then I got blue, worried all the time, wakened in the night, and couldn't get to sleep again. None of the medicine I took helped me. One day I was reading of a very interesting case like mine cured by Dr. Hamilton's Pills. I took the same treatment. It was just right—didn't physic me to death, but took hold of the weak, sick parts of my system, and set things right. It seems as if Dr. Hamilton's Pills have made me young again, and all my color, spirits, vigor, and health of former days have returned to stay." Every girl and woman should use Dr. Hamilton's Pills regularly. They help a woman in many ways. Beware of the dealer who asks you to take an inferior pill on which his profit is larger than on Dr. Hamilton's. Sold in yellow boxes, 25c per box, all dealers, or The Catarthzone, Co., Kingston, Ont.

HARRIS & CO. PROPRIETORS
WATFORD, DECEMBER 1, 1911.

NOTE AND COMMENT.

China with her 300,000,000 will be the first Republic on earth, and Uncle Sam must go away back and sit down with his paltry 90,000,000.

The Chinese general for whose head a reward of \$200,000 is offered has, at least, the gratification of knowing the importance in which he is held by his enemies.

There is one question every young man should ask himself before leaving the farm and that is "Is it better to live in a city where wages are high but hard to get and where food is higher and harder to get or on the farm where food is cheap and plentiful and farm products going up in price every day?"

There is no excuse for parents to be ignorant of the haunts of their children and of the company which they keep. If young boys or girls are on the streets at night, they should, on returning home, be able to give a satisfactory account of their whereabouts, or else submit to such bodily penalties as would make

them cautious for the rest of the season.

Provision is likely soon to be made in the Toronto public school system for making better housekeepers out of thousands of girls who leave the public schools to go, in a large proportion of cases, into factories and stores, and from there into homes of their own without proper preparation for household duties. And a serious effort will be made to conserve the infant life of Toronto by giving instruction in the proper care of infants and young children.

The rural postmasters throughout the Dominion are appealing for an increase of salary, so it has been decided by the Ontario Postmasters' Association to send a deputation of seven to interview the postmaster-general at Ottawa next February. An increase of 25 per cent. for the larger offices, and 35 per cent. for the smaller ones, is suggested, and is thought reasonable. Minimum salary at present paid is \$35 per annum. The delegation intends to make the salary question the chief issue.

The day of rural pleasures, amusements and sports must be revived if men and women are to be made contented and happy on the farms. It is the evening's pleasure that draws people to the city. The chief social need in the country as well as in the urban municipality is to provide clean and healthful pastimes for the toilers between the hours of work and sleep. Herein lies the strength of the city's lure. The people who must be amused in the evenings join the exodus from the country to the city. Therefore if the farmer is to hold his hired help he must provide for their hours of recreation as well as for their hours of labor.

Don't be a scold in the home, in business, in church, or in politics. There are some people who seem to think that the most can be got out of others by fault-finding and name-calling. No more foolish mistake could be made. Nobody is made better by scolding or ridicule. Try the opposite and measure in results. But there are some men who are born to scolding as the sparks fly upwards, or have at least cultivated the habit until it has become a disposition. Everybody notices and comments upon the failing, and, instead of being thought clever, they are branded silly weaklings. It is a weakness to scold. "The scolder is an abomination to men," no matter where he is found. Instead of smashing things try what patching them up will do.

The United States Post Office Department has decreed that offering prizes (so-called) "for the best and neatest correct answer," to a puzzle that any intelligent child could see the solution of at a glance, is illegitimate, and comes under the lottery ban. The department is unquestionably correct. From time to time this sort of thing, often in connection with the sale of pianos and organs appear in many of the Canadian daily papers. To the initiated the words "fake" and "fakir" are written all over them, but at the same time these cheap attempts at publicity meet with some degree of success among those who should know better but don't. Of course, no one ever gets anything worth while in the way of prizes. What the contestants do get, when they get anything, is a bond or a cheque, alleged to be good for a certain amount toward the purchase of this or that article, whatever it may be. Perhaps the point might be made that any one sufficiently dull and stupid to take such fooling seriously deserve their fate, but at the same time it would be well if the Canadian Post Office Department took a hand in the matter by refusing this sort of literature the use of the mails.—Saturday Night.

THEY WAKE THE TORPID ENERGIES.
—Machinery not properly supervised and left to run itself, very soon shows fault in its working. It is the same with the digestive organs. Unregulated from time they are likely to become torpid and throw the whole system out of gear. Parmelec's Vegetable Pills were made to meet such cases. They restore to the full the flagging faculties, and bring into order all parts of the mechanism.
Love of admiration has caused many a woman to meander from the straight and narrow path.

How's This?

Take Hall's Family Pills for constipation.

Caught Wild Duck with Fish Line

St. Catharines, Nov. 15. Sometimes even a fish story is true. Here's one:
Dr. Comfort, the veteran ex-police magistrate of this city, is a great sportsman. He usually gets the first and the last fish of the season, though he is close to 80 years of age. Yesterday afternoon he was fishing for the last time on the end of the pier at Port Dalhousie. He had pulled in a couple of perch, and was about to reel up and go home when around the pier swam a big, fat, wild duck. Before it sped the fisherman the latter, acting with the quickness of thought, flopped a noose with his line over the duck's neck and, jerking it up, was able to grasp the fighting, flapping bird before the noose let go. The doctor says he never knew of wild duck to taste better. The duck had lit in the harbor and was taking a quiet little swim out around the pier.

Gas Tank Explodes.

Wallaceburg, Nov. 22.—The glass tank in the new glass factory at Wallaceburg, exploded at 12 o'clock last night, and its contents flowed in profuse streams until it was empty. As the red hot glass escaped from the tank the sky overhead suddenly became of a fiery hue.
The fire department was soon on the scene, but all the glass had escaped from the tank.

Joseph Gallerno, an employe, who was some distance away from the tank when he saw the high brick wall begin to give way under the pressure of the glass, which began to come through in little whitish streams, tapped the tank in another place so that it might be more quickly relieved of the pressure. By this act he probably saved the tank from complete destruction.
The glass will not be a loss, as it can be gathered up again, but work will be discontinued until the tank is repaired. The factory is a fireproof building, being built of brick and steel throughout. The products of this factory are all turned out by machines. The Owens machine system of blowing glass is used. No one was injured by the explosion.

WOMEN READ THIS

Parisian Sage Puts Lustre Into Dull, Faded Hair.

Every woman reader of the Guide-Advocate who desires radiant hair, if everyone admires should go to T. B. Taylor & Sons to-day and get a large 50 cent bottle of Parisian Sage.

Parisian Sage is the best hair tonic known. It is the only one that will cure dandruff, cleanse the scalp and make the hair grow long and beautiful.

"Early to bed and early to rise"
Is all very well for sick folks and guys,
But it makes a man miss all the fun till he dies
And joins the folks who have gone to the sixes.
Go to bed when you please—
And lie at your ease—
For you'll die just the same of some Latin disease.

HOW WEAK WOMEN

May Be Made Strong at Small Expense and No Risk

There are hundreds of women in this vicinity, weak, thin, run-down, tired out and nervous. Such women need Vinol just as much as did Mrs. Jane Pepper, of 2307 Howard street, San Francisco, Cal., who says:

"I have used Vinol for some time with particularly gratifying results. I was run down, weak and debilitated, and my appetite was gone. After taking several bottles of Vinol I found my condition greatly improved, and do not hesitate to recommend Vinol to anyone similarly affected."

Vinol is not a secret nostrum, but a delicious cod liver and iron tonic without oil, which will create an appetite, tone up the digestive organs, make pure blood and create strength. Try a bottle of Vinol with the understanding that your money will be returned if it does not help you.

It is up to You

To protect your family from the ravages of disease and infection; and the rigors of winter; to make your home the abode of Health and Happiness.

Statistics tell us that there were over 250,000 deaths in North America last year from Fever and Pneumonia; over 90 per cent. of these cases were traceable to out-door closets, and all were the result of insanitary conditions.

Are you going to allow this terrible death rate to continue?

Why not Insure Health by Installing
