CHERRY PECTORAL COUGHS, COLDS, HOARSENESS, BRONCHITIS WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

We invite the attention of the public to the Certificates appended below, and bespeak for them that candid consideration which their honest frankness deserves.

Jackson C. II., Jackson City, O., 20th Nov. '52
Dr. J. C. Aven.—Sir. The Cherry Pectors is much inquited after. Several of our best Physicians have used if, three of them in their, own case, and always with the happiest effects. The noncrons patent medicines: 'ways before them, lead to credulity in regard to every new remedy; and it is only after undoubted evidence of value in any article-that any thing like a general confidence can be excited.

The unrivalled excellence of this combination of agents (in the Cherry Pectoral.) provedbeyond cavil by repeated trial and their own observationy has compiled inedical men t proclaim abroad its usefulness. It is beyond all doubt the best general remedy we have for Pulmonary Affections of this climate, at the same time sedative and expectorant—a ratic Combination of properties.

In the hope that it will prove its own reward subscribe myself,

JAS. II. C. MILLER, M. D. Allegen Mich. 19th Jan. 1953

Dear Sin, No one, no, not one—man, wo man on child—can be found to deny that he cherry Pectoryl is all that it claims to be. There is much used in this vicinity, although not flown until recently. The community should know its virtues.
