

RICE LEWIS & SON

HARDWARE AND IRON MERCHANTS.
TORONTO.

We have much pleasure in calling your attention to a new article of

COTTON BELTING.

The following advantages are claimed for it:

- It does not stretch as much as Leather. Runs perfectly true
- Has only one joint and can be made any length.
- Is stronger than Leather or India Rubber.
- Will work in damp or moist situations.
- Will bear running on both sides at same time.
- Being a Woven Fabric, it is perfectly equal in thickness and strength throughout.
- Will stand a greater amount of heat than either Leather or India Rubber.
- Has greater adhesion to the pulley, thereby preventing slip.
- Has greater flexibility.
- Is peculiarly suitable for high speeds.
- Will run either crossed or open.
- It is lighter per foot than Leather.

It is made from 2 to 48 inches wide, and in three strengths. At present we have 2, 2½, 3, 3½, 4, 5, 6 inch.

We shall be glad to quote prices and execute orders.

Yours truly,

RICE LEWIS & SON.

EXCELSIOR ORGANS

Acknowledged to be the most serviceable
Organ in the market.

JARVIS PATENT FURNACE FOR SETTING STEAM BOILERS.

Economy of Fuel, with increased capacity of steam power.

The same principle as the **SIEMENS' PROCESS OF MAKING STEEL**, utilizes the waste gases with hot air on top of the fire.

Will burn all kinds of Waste Fuel without a blast, including screenings, wet peat, wet hops, sawdust, logwood chips, slack coal, &c.

Over 1,500 boilers set this way in the United States and Canada.

Send for Circular.
