

A PECULIAR CASE.

Distressing Results Following Vaccination.

A Young Daughter of David McHardy, of Fergus, the Victim—Has Suffered the Most Intense Agony—Doctors Failed to Help Her.

From the Fergus News Record.

Nearly every person in this section is acquainted with Mr. David McHardy, the popular leader of St. Andrew's church choir, Fergus. Our reporter called upon Mr. McHardy at his home in Upper Nichol recently, and from him and his estimable wife a tale of terrible suffering was elicited, suffering that has brought a once exceptionally strong and healthy child to the verge of the grave. The subject of the sketch, Lena McHardy, is fourteen years of age, and her parents say she has not grown any since her illness began some two years and a half ago. Her terrible suffering dates from the time she was vaccinated in June, 1894, and what she has since undergone has aroused the deepest sympathy of all the friends of the family. In conversation with Mr. McHardy and his wife, the following facts were elicited:—"Two years ago last June," said the father, "Lena was vaccinated by a doctor in Fergus. The arm was very sore and swollen all summer, and became so bad that it was a mass of sores from the shoulder to the elbow. In October 1894 a large lump appeared on her back, over one of her lungs. The doctor who vaccinated her, treated her all that summer, calling very frequently, but the medicine he gave her did no good and she was growing weaker and weaker. When the lump broke out on her back another doctor was consulted, who said she was in a very bad state of health. Her constitution appeared to be completely undermined, and her appetite had completely failed. The last doctor called in gave some outward applications, and lanced the gathering, but it did not give the patient any benefit. Nine such gatherings have appeared since that time, but each broke and disappeared of its own accord, only however, to be followed by another. The child became very puny, and little or no food would remain on her stomach. At night she would fairly rave with the pain in her arm and back, and consequently her trouble was aggravated by a loss of sleep. She had the heat of attendance but to no avail, and she was slowly but surely sinking. Friends advised a treatment with Dr. Williams' Pink Pills and as a last resort they were tried. To the surprise of both parents and friends Lena began to improve soon after beginning the use of the pills. Her appetite returned, she became stronger and her general health much improved. The sores have not yet left her back and arm, but her constitution is being so very much improved under the treatment with Dr. Williams' Pink Pills that her parents are looking for a complete cure. Mr. and Mrs. McHardy thank Pink Pills for the present improved condition of their child, as they have done her more good than the scores of bottles of doctor's medicine which she took.

Dr. Williams' Pink Pills are a blood builder and nerve restorer. They supply the blood with its life and healthgiving properties, thus driving disease from the system. There are numerous pink colored imitations, against which the public is warned. The genuine Pink Pills can be had only in boxes the wrapper around which bears the full trade mark, "Dr. Williams' Pink Pills for Pale People." Refuse all others.

INSURANCE THOUGHT.

A contemporary well says:—"Many people ask: 'How much insurance ought I to carry?' The question can only be answered by asking another, 'How do you want your wife and family to live after you are gone? Do you want them to have the comforts they have been accustomed to, or are you willing to have them go shabby and hungry?' Remember that you will not be here to advise and regulate the expenditure,

Imitations Abound.

Be on your guard. There are over 15 imitation Lead Packets of

"SALADA" CEYLON TEA

being pressed on the public. See that the word "SALADA" is on the packet. This is your safety.

and that with your death, except in unusual cases, the earning power stops. Your wife will heartily co-operate with you in making up the difference sufficient to leave your family well provided for and comfortable, rather than by neglect in doing so leave them to a life of pinching economy. While the difference in payments between a small and a liberal endowment policy is counted by hundreds, the difference in results is reckoned by thousands. It is very rare that we get too much of a good thing. Men are often heard to lament that they had not taken more insurance when the opportunity offered."

After perusing the above, the man who thinks enough of his family to provide for their present welfare should seriously consider the matter of life insurance, and act at once to make ample provision for their future welfare, by procuring a policy of life insurance in that strong and successful company, the North American Life.

The Compound Investment Policy issued by the North American is a very liberal contract and contains many desirable advantages.

For full particulars address Wm. McCabe, Managing Director, Toronto.

The election of Mr. George W. Chadwick, the well-known American composer, as Musical Director of the New England Conservatory of Music in Boston, is an event of much importance, for it places the foremost American musician where he belongs, i.e., at the head of America's leading musical institution. Mr. Chadwick's recognized ability as a composer, will ensure the development and maintenance of a strong school of composition, while his breadth as a musician and his consequent intimate knowledge of the requirements of each department, will build up the Conservatory on symmetrical lines to a still higher level than its now occupies.

Nerves

Are the Telegraph System of the body, extending from the brain to every part of the system.

Nerves are fed by the blood, and are, therefore, like it—weak and tired if the blood is thin, pale, impure—

Nerves are strong and steady, there is no neuralgia, brain is unclouded—if the blood is rich, red and pure.

Nerves find a true friend in Hood's Sarsaparilla, because it makes rich, red blood, gives good appetite and digestion.

Is the One True Blood Purifier. All druggists, \$1.

cure all Liver Ills and Hood's Pills Sick Headache. 25cents.

It is wonderful how any good article placed before the public is imitated. If the public show their appreciation of any given thing, there are always some people small enough to follow in the exact footsteps as far as imitating the outward appearance of a real good article. What they forget is the important part, that is, not the outside cover, but the contents. Take "SALADA" Tea for instance: there is a host of imitations of this article, because the sale is extremely large, and the quality is so good that many people desire it. Lead packets are now put up to resemble it closely, and all called "Ceylon Tea," with some name in front of "Ceylon" that resembles "SALADA" as closely as the law will permit. So it is with a host of other popular articles.
