

INTERNATIONAL CONGRESS OF ENTOMOLOGISTS.

A number of eminent Entomologists in various countries have agreed upon the issue of an invitation to Entomologists in Europe and America to attend an International Congress of Entomologists to meet in 1908. The purpose of the Congress is to promote the interests of entomological research and of Biology in general, by furthering cordial co-operation between the Entomologists of different countries; stimulating research and directing it into channels where it may be most fruitful, or where special research is most needed. Questions of Applied Entomology will likewise be dealt with in the discussions and lectures, the large experience of pure Entomology being applicable with profit to Economic and Hygienic Entomology. All interested are cordially invited to advise and assist in the organization of the Congress. Communications should be addressed to Dr. K. Jordan, Zoological Museum, Tring (Herts), England. The following Entomologists have already signified their support of this movement, and are desirous that the officers and members of the Entomological Society of Ontario should co-operate in the work :
