TO EXCHANGES, ETC. Kindly clearly address your communications, etc., to the Editor of this Magazine. There are three different offices in Westminster Hall, and usually something like half a hundred students from various quarters, and at all stages of training, about the institution.

Our interest in our contemporaries is a real one, but only by having papers and periodicals sent direct to the publishing office can we be sure of seeing them—when they are of most value—on arrival.

Attention to this request will also prevent communications being left lying in the wrong office, or otherwise going astray; and at the same time ensure independent exchange references in due course in our Magazine.

—The Managing Editor.
