

fact that having a combined Zenith and INWATS system which will require different numbers in various provinces is a relatively minor disadvantage compared with the savings in cost. We expect the system to be given wide publicity through telephone directories and through the print and broadcast media, which should be invited to publicize frequently the local Enquiry Centre address and telephone number, as a public service.

To maintain the efficiency of the Enquiry Centres it follows that their back-up service should continue to be developed to cope with the increasing public demand for information. Indexing and cataloguing of published government information material should continue, in accordance with the needs of the Enquiry Centres to convey available information to citizens in the most attractive and efficient manner possible.
