MILKMEN LOSING HAMILTON SALES

Twenty-Five Per Cent. Decrease Since Mayor Allan's Fight Started.

RENT OF EASEMENTS

Burlington Beach Commission Wants More Money for Privileges.

HAMILTON, Nov. 5.—(Special.)— The chief item of discussion in Hamilton at the present time is Mayor Allan's determined fight against the high cost of living, and to say that his worship is meeting with success would be terming it mildly. Yesterday the milk dealers announced that their sales had decreased about fifteen per cent. Today it was said that the decrease had reached twenty-five per cent. Several representatives of Toronto milk companies were in the city today and approached the mayor in connection with his campaign. It was said that they asked a lot of questions with the intention of discouraging him in his fight, but, needless to say, his worship does not intend to bother his head about the affair from a Teronto standpoint.

It is figured that those in the Queen City are afraid of the present agitation spreading there, and are also standing behind the Hamilton dealers, whose aim, it is declared, is to boost the price of their commodity to ten cents per quart.

Rent of Easements.

The Burlington Beach commissioners are actively engaged at present in an effort to have the Toronto and Niagara Power Company pay a higher rental for its easement for a second line of towers across the sand strip, than the amount suggested by Hon. Frank Cochrane. When the beach was under the jurisdiction of Saitfleet Township Connell, a bylaw was prepared which previded for the company to pay \$1500 per year for an easement across the beach. Then the commission was appointed to take charge, and Hon. Frank Cochrane overruled the commission's objections and allowed the forming of the seasement.

When Mr. Cochrane over-ruled the commission's objections and allowed the commissi

charged, Mr. Cochrane wants to cut that price in two.

County Shelter.

The residents of the County of Wentworth have arranged to hold a special meeting in the Waldorf Hotel on Friday evening for the purpose of discussing the advisability of erecting a shelter for dependent children of the county.

School Hours.

Most of the teachers of the collegiate institute are in favor of the scheme to have one session, commencing at o'clock and closing at 2.30 o'clock, during the winter months, as suggested by Dr. Thompson, the principal. Several of them have objections to make on the score of the long hours and the inade quate accommodation for the pupils during the half hour which the proposition allows for luncheon. It is suggested that meals be served at the collegiate while the scheme is in operation.

Hon. Samuel Barker, M.P., returned from Toronto today, and denied that he had and intention of resigning his seat in the house.

YANCOUVER, Nov. 5.—(Can.

VANCOUVER, Nov. 5.—(Can. Press.)—Flour is selling for a dollar a pound in the new gold field, at Shushana, and nails are worth two cents each, according to statements made today by new arrivals from the creeks. Four hundred men are new VANCOUVER, Nov. creeks. Four hundred men are now working in the diggings.

Journeyed Alone With Broken Arm

Falling from the rear of his wagon, to which he was lifting a heavy sack of potatoes, Wellington Paisley, a farmer, 54 years of age, fell to the ground at his home in Stouffville yesterday afternoon and fractured his arm. He boarded a train for Toronto and walked into the General Hospital, where it was found that the delay in having the injury attended to had resulted in a bad swelling of the whole of the arm. His condition is regarded as serious.

DR. HALE IS SENT

French foreign offices, has asked the French Government to mediate between the United States and Mexico.

Dr. Hale, who was sent to Mexico City by President Wilson soon after the latter entered the White House, to investigate conditions there, has been sent to the camp of the "first chief" of the revolutionary forces.

sent to the camp of the "first chief" of the revolutionary forces to ascertain to what extent General Carranza will co-operate with the United States to force Huerta to abdicate, if such a step is necessary. According to high authority, Dr. Hale will present two plans of action to General Carranza. They are:

(1) That the United States, with the assistance of the army and navy, blockade all ports and station a guard in all the important towns on the Mexican-Texas frontier and the east and west coasts of Mexico. That after the United States has taken these steps, General Carranza will begin an active campaign to capture the Mexican capital and other Huerta strongholds in the interior of Mexico.

the United States to intervene by sending troops into Mexico for the purpose of conquering any faction, and that whichever plan is adopted the part of the United States will be that of a friendly neighbor desiring to protect its own citizens and those of other foreign nations. While the despatch received, announcing that Huerta wished France to mediate between the United States and Mexico was unofficial, it found credence in administration circles

IDAHO CONTAINS

of Trail Costing Origin Twenty Thousand Dollars is Unknown.

Lying between the Snake River on the south and the Sawtooth range of mountains on the north, and between Lost River and Wood River in Idaho, is a Piver and Wood River in Idaho, is a wonderful country, according to a Boise Clity correspondent of The New York Sun. Near what is known as "Cinder Hill" is a great crater 200 or 300 feet deep, and about the same in width. The sloping walls of this crater are covored with fine, logic lava, and it is impossible for anyone to descend without using a rope. Near this crater are fields of rough lava, abcunding in fissures and crevices 10 io 20 feet wide, and from 50 to 100 feet deep. Now, here is a strange twing—a real mystery of the desert. Thru this great lava plain near the Cinder Hill a trail, half a mile in length, 6 feet wide, and from 6 to 10 feet deep, has been concurued by unknown parties. It must have cost at least 10 000 Not the only reason, though; he patterns are always neat—
Nothing about them to make a man too conspicuous; nor yet to dull as to lose you in the prowd—many have attractive wilk-thread patterns—

from 6 to 10 feet deep, has been constructed by unknown parties. It must have cost at least \$39,000 to build. Who built it and for what purpose is a mystery. It is said there is a stream of water and about 2000 acres of rich meadow land in the heart of this great lava plain somewhere. Men have looked for this stream and meadow for a quarter of a century, but fave been unable to find it. It is said the stream originates in a pot hole and cannot be seen until one reaches the very rim tocks.

In the summar there is no water on the lava plain, and the heat is intense, making exploration difficult, if not impossible.

Port Arthur Board of Trade Say It Means Loss of Revenue

If Means Loss of Revenue to That City.

of the Cornwall Township Council yesterday, a motion, that the council submit a bylaw to the ratepayers at the municipal election in January, to have the township return to the statute labor system, was voted down.

The citizens of Mille Roches petitioned the council to be allowed to instal a system of street lighting in the village. Permission was given to instal ten 66-candle power lights at a cost of \$10 per light per year, provided the St. Lawrence Power Company grant the same terms and conditions to the Village of Smithville as apply to the Village of Mille Roches in regard to lights installed, or that may be installed. The clerk was authorized to notify the St. Lawrence Power Company that they may proceed with the installation of lights at once.

(Special to The Toronto World.)

LOS ANGELES. Nov. 5.—As a result of extensive experiments conducted with alloon-carried meteorological instruments on Catalina Island last summer, the government weather service here announces all records for upper dir research have been broken.

The twenty balloons sent up, some of which reached a height of 20.3 miles, reveal that after an elevation of 11 miles is reached the temperature recorded was 87 below stready to the village of Mille Roches in regard to lights.

The clerk was authorized to notify the St. Lawrence Power Company that they may proceed with the installation of lights at once.

THOUGHT CHARGES

For York Township Council But Not Without Foundation -Majority of County Police Good Men.

An interview with a local barrister regarding the payment of poince magistrates and county constables by the fee system, which appeared in The World on Oct. 29, aroused a good deal of comment, favorable and otherwise, thruout the county. Reeve Cornell of Scarburo said last night that he thought some of the charges were a little sweeping, altho he admitted that there was great need for miprovement, and was in favor of abelishing the fee system altogether.

R. W. Phillips, the high constable of York County, admitted that there was a good deal of truth in the statements made, and that there were constables who might take advantage of the scope afforded them, but did not think it just to the majority of the county police.

"I think, myself, that the fee system is wrong in many ways," he said, "but it's a question whether constables paid a salary would turn out when called on at any hour of the day or night, or would be so active in hunting cases that required attention. There are a lot of good men on the police force thruout the county who would not be associated with anything shady. The matter is in the hands of the police committee, however, and I have no doubt they will deal thoroly with it."

WARD SEVEN.

The Keele street and Perth avenue fire stations sent detachments about 7 o'clock last night to a blaze which had broken out in the rear of Matthews' picture frame factory, Stirling road and Dundas street. The firemen's prompt arrival precented a sarious confiagration among the dry steck, and the damage amounted only to about \$25. It is thought a spark from a passing locomotive caused the blaze. The Humberside Collegiate Rugby team have apparently been visited by a winning streak. Yesterday afternoon, on the neutral High Park grounds, they defeated the senior team of the High School of Commerce and Finance, by the score of 20—0. The team was composed of the following: Halves, Cade, Fulton and Atwell: wings, Dudley, Millard, Lowery, Devins, Rayler, Irwin; scrimmage, Breen, Thorp, Smiley; quarter, Wright; flying wing, Hathaway.

Miss Florence Galbraith, a new addition to the elocution staff of the Toronto Junction College of Music, gave a recital last night in the college hall. Dundas street. Her program was a varied one and her rendering of the selections chosen, electlent. She was assisted by well-known local vocal and instrumental talent.

The winter floor of the Keele street fire station was put in position yesterday. This is a temporary covering of heavy planks, designed to prevent the hard shod hoofs of the horses from injuring the hardwood floor of the hall when answering alarms. Grooves are constructed to accommodate the runners which are used when the snow comes.

The police had long suspected Sebastin, and on raiding the place vesterday found evidence sufficient to justify their suspicions. From the information in their hands and divulged by Sebastin the following, parties were all arrested either at their homes or at their place of business during the afternoon:

Richard Maskell, 598 Yonge street, picture framer, aged 50; Walter Taylor, 5 McGee street, aged 41, barber; Harry Meade, 762 St. Clair avenue, glass cutter, aged 42; Albert Booth, 371 Danforth avenue, tobacconist, aged 42; Emma Guinane, 99 Hamilton street, arrested on a warrant: Thos. Lawrence, 817 East, Queen street, merchant, aged 33; Arthur Blackman, 81 Morley avenue, aged 23, joiner.

All will appear in police court teday. mysicriously disappeared, was a passenger on the Corcovado. Senor Dominguez gave out a pamphlet entitled "Words From a Dead Man." The pamphlet contains strong charges against Gen. Huerta.

DISCORD ENLIVENED **CORONER'S INQUEST**

Coroner Elliott's jury, which enquired into the death of Robert Ledlie, who died in the Western Hospital on Oct. 22, as the result of burns received when a boiler plug blew out at the Canada Foundry, the day previous, returned a verdict charging the employe who first put the plug in the boller, with negligence.

The coroner was not satisfied with the verdict, as the evidence went to show that the plug had been faulty, and that it was not the fault of the workman who originally installed it.
