strength of the English market would induce strength of the baginst market world indice some advance here, but the reports of sales now going on dissipate that notion entirely. The London May sales are the counterpoise of those for April, the 10 to 15 per cent, advance is quite lost and prices now stand on about the level of March last. As this market refused to tally the upward movement by corresponding advances, so it is claimed it will now naturally refuse to score the decline. The weakness of the market in the States, which, while London was still improving, was regarded with real or assumed indifference, is now recognized as a live influence upon the temper of the market, imparting to it a sober tone.

## CARSLEY'S 5. WHOLESALE.

Our Wholesale business bids fair to be as great a success as our Retail.

### The Same Plan.

We are adopting the same plan of working as has been adopted in the Rotail, namely, of never being undersold, but on the other hand, to have our prices the lowest in the market, and to deal in nothing but suitable goods.

### The Talk.

The talk or remarks of the Trade are that Carsley's Goods sell quickly.

### WORTH NOTING.

It is worth noting that our Wholesale Prices are so much lower than our Retail Price as to admit of Merchants selling at our retail prices and being able to get a larger profit than can be made in any other way.
