

INDEX

621

- Scapula, fractures of the 445-6
- Sciatic nerve, injuries of the 386-391
- Secondary haemorrhage 100
- thage, secondary
- Secondary suture 117-18, 223-4
 - joints and pleura of 124
 - made possible by sugar count
 - method 227
 - over bone 126
 - reactions after 119-20
 - standards of 118-16
- See* Suture
- Sepsis, recent progress in combating 20
- Septic wounds, early in the war 20
- flora of, 71
- Septicæmia, autogenous vaccine therapy
 - in 132-4, 165-8
 - blood examination of in 18-
 - bone lesions, due to 160
 - clinical appearances of 160-2
 - coliform 51-7
 - complicating wounds treated by
 - autogenous vaccine 132-4
 - culture of organisms of 188-203
 - diagnosis of 163-5
 - diphtheroid, 60
 - gas gangrene type, 160-187, 201-4
 - mixed types of 202-5
 - prognosis of, fatal, 165
 - prophylaxis against 166-7
 - specific treatment of 167-8
 - streptococcal type 11-5, 52, 180-98
 - types of, 187
 - urine examination of in 180
- Sequestra from amputation stumps 600
- Serous cavities, gas gangrene in the 113
- local infection in wounds of the 121
- membranes, special resistance of to
- exp. from 122
- Serum, bactericidal powers of, 161
- function of in wounds, 160
- horse, Burroughs and Wellcome 135
- Seton wounds, 16-11
 - dangerous nature of 269
 - excision of 275-6
 - sterilisation of 293
- Sewage, bacterial action on 31
- Shaving parts round wounds 270
- Shell wounds, due to large fragments 13
 - excision of, 271
- Shock, after infliction of wound 21, 29
 - factor of wound infection, a, 87-8
 - intensified 88
 - multiple wounds in 9
 - predisposing cause of gas gangrene, a, 150-1
 - treatment for, 280-1, 340-2, 547
- Shoulder joint, injuries of the 388-91
 - complications of 391
 - nature of 388-390-1
 - treatment of 391-1
- Shrapnel, infliction of wounds from 62
- Silent areas and plane sin brain 171, 181-2
- Skin, anaesthesia, traumatic 586-7
 - factors of wound infection in the 87
 - 92-95-6
 - sterilisation of the importance of 272
 - toilette at casualty clearing station, 271
- Skull, examination of wound of the 435
- fractures of outer and inner tables
- of the 493
- injuries of the, 437-61
- trephining injuries of the 180-191
- 493-495
- Sloughing stage of wounds 111
- Small intestine, operative treatment of
- the, 555-558, 567-8
- Smears from wounds 163
 - counting organisms in 163, 227
 - drawings of 167-6
 - method of tubing 164-5
 - secondary suture based on
 - examination of 227
 - staining 165-6
- Solid cultural media 75-7
- Spannings pneumothorax 812
- Spinal cord, injuries of the 601-5
- Spine, complete division of the 247
- 601-5
- Spine, gunshot wounds of the 603-11
 - lead-cores in 604
 - complications of 607-8
 - compression in 603
 - diagnosis of 603-7
 - foreign bodies in 600
 - psychic derangement in 603-4
 - symptoms of 603
 - treatment of 608-11
 - varieties of 603
- Spirilla 30-1
- Spleen, wounds of the, 500
- Splints, ankle 383
 - arm, 369
 - caliper 124
 - ham 122
 - hip 315
 - Hughes' 112-3
 - humerus 112
 - Jones' 115
- Spores 31
 - destruction and vitality of 32
- Speculation 32
- Stains for scars, 105
- Staphylococcal infection, autogenous
- vaccine treatment of 131, 197-8
- Staphylococcus 31, 40-2
- Statistics, wound, complicated by multi-
- plicity 27
- relating to abdominal operations, 507-8
- Steam steriliser, 32-3
- Sterilisation of clothing 86
 - of emulsions, 136-7
 - test for 137
 - of media by intermittent method 39
- Sterilisation of wounds, by Carrel-Dakin
- method, time required for, 113-15, 316
- by other methods, time required
- for, 115-16
- the pictures during 162-113
- haemorrhage diminish after 88
- Sterilisation of wounds, delay in 111
- 120
- - - faulty technique, due to 120
- - - - - malaria, due to 206-20
