

Dr. Chase's Syrup of Linseed and Turpentine

Has enormous sales and has been largely imitated, but never successfully rivalled as a

Treatment for Throat and Lungs.

There is no guesswork about the virtues of Dr. Chase's Syrup of Linseed and Turpentine. It has been before the people too long, and withstood too many a battle brunt from aspiring rivals, to be considered an experiment of unknown value.

Year by year, as the fall and winter seasons come and go, the sale of Dr. Chase's Syrup of Linseed and Turpentine increases steadily and certainly. It has proven its remarkable value, won its laurels and continues to lead the van as the most popular and most largely used cough and cold medicine of this country.

Children especially are fond of Dr. Chase's Syrup of Linseed and Turpentine, because it is sweet and pleasant to the taste, and quickly relieves and cures them when gasping for breath with choked-up air passages, or tearing the linings of the throat and bronchial tubes with a severe and painful cough.

Bronchitis, whooping cough, croup, sore throat, severe chest colds and painful

coughs are relieved and cured promptly and thoroughly by this famous preparation. It also frees the asthma sufferer from the dreadful paroxysms which cause him such keen agony and cures asthma, as has been proven in a hundred cases.

Dr. Chase's Syrup of Linseed and Turpentine aids expectoration, clears the throat and air passages, soothes and heals the inflamed linings of the bronchial tubes, and cures coughs of every description. But it is far more than a mere cough cure, for its action is far-reaching and it thoroughly removes the cold as well.

You cannot compare Dr. Chase's Syrup of Linseed and Turpentine with any remedy you ever used. It is unique as a treatment for throat and lung troubles. There are other preparations of linseed and turpentine put up in imitation of Dr. Chase's, and it is therefore important that you be careful when buying, and be sure that the wrapper bears the portrait and signature of Dr. A. W. Chase, the famous Receipt Book author.

BABY ILER.

Had Bronchitis from Infancy

The least cold would bring on an attack, and we could get nothing to help him.

Parents whose children are subject to bronchitis, croup, and severe coughs and colds, will read with interest this letter from Mrs. Iler, whose boy was cured of chronic bronchitis by using Dr. Chase's Syrup of Linseed and Turpentine.

Mrs. EUGENE ILER, King street, Truro, N.S., states:—"From an infant one of my children was troubled with bronchitis, and the least cold would aggravate the trouble. We could not get anything to help him and were often greatly alarmed. Hearing of Dr. Chase's Syrup of Linseed and Turpentine as a treatment for bronchitis we used it, and effected a complete cure. If any of the children take a cold or cough I give this medicine, and have never known it to fail to bring relief."

"I was troubled a great deal from sick headaches caused by indigestion, and was cured by Dr. Chase's Kidney-Liver Pills. I have great faith in Dr. Chase's Remedies and can recommend them to others."
