After a duil opening, the stock markets here were practically booming to-day, being led by Spanish fours, Americans and Grand Trunks. There is a tendency here again to buy Americans, and prices here were above the New York parity all day. The close in the stryet was a trifle under the best. There was a sharp rise in Kaffirs, first on rumors of the death of President Kruger and then on reports that the Deutsche Bank had declined the terms of a loan to the Transval Government. Neither of the re-ports was confirmed, but the latter was credited 'n good quarters. The satisfactory termination of the settle-ment has given fresh heart to the markets, but much liquidation must, perforce, eccur. The Paris and Berlin markets were firm, Price-Most American Rails Higher in on the English Market-Corn, Oats and London, Too-Canadian Stocks-Market Provisions Hold Their Own-Marke otations - Chicago Gossip. Wodnesday Evening, March 30 Wednesday Evening, March 30, The wheat market looked firmer early to-tay. Liverpool opened higher than yester-ay, and closed at an advance of from 3/d 1d for the day. The firmness of stocks wall-street helped to strengthen the hicago grain market, and early in the day dees moved up fractionally. The market ter, however, showed liftle vim, and a veline occurred. As compared with Thes-y's final figures, to-day's close exhibited gain of 3/c for the July future, a gain of c for September, and a loss of 3/c for ray. Corn, oats and provisions showed rength to-day. London and Wall-street On higher quotations from London and pachic news from Washington, Wall-street stocks boomed to-day again. The decision of the Senate leaders to awalt Spain's re-ply to the Government's propositions was the chief strengthening influence. Shorts bought to cover, and there was also good purchasing on long account. The extreme advance in Sugar, which was helped by an increase in the price of refined sugars, was 6%, in Metropolitan Railway 7%, in Manhartan 3, Tobacco 2%, Consolidated Gas 6%, People's Gas 3 and in the general railway list 2 to 4. The mar-ket closed strong and not far from best prices. for May to Aug. Chicago Gostip. Henry A. King & Co., 12 King-street east, chicago and the following despatch to-day from Chicago the following despatch to-day from the strength in wheat to-day was de-rived largely from the firmness of Liver-pool, and the rise in securities. Weaker cosing yesterday gave the bears confidence and there were probably a great many who weat home short good sized lines, bellev-ing, with more or less sensational news from Mashington. Liverpool, however, opened ¼d higher, and closed at an ad-vance of ½d to 1d. In addition to this stocks were buoyant and showed good ad-wares, while advices from the Capitol were not such as to cause any alarm. The prediction of warmer weather was a bear factor, and created some selilar. On the other hand receipts were ight, both local and in the Northwest. While the market on the whole has been firm, it has not shown much vim or snap, the temper of the traders still being bearish, and from and and pheenances there is not much demand on the hubbro exceent by shorts. Who will Chicago Gossip. It is estimated that Northwestern coun-try elevator stocks of wheat will on April 1 total 2,250,000 bush, as against 5,300,000 bush on March 1, a decrease of 3,050,000 bush for the month.

McIntyre & Wardwell's despatch to-day says: The trading was very heavy and aggregat ed over 650,000 shares, while the fluctua tions were sharp and frequent and covered a range of 2 to 7 points in the more active stocks. The more important advances were 8 per cent. Rock Island, Chicago, Burling-ton & Quincy, New York Central and Jersey Central, 4 points in Manhattan, 7 each in Consolidated Gas and Sugar, and 7¼ in Metropolitan Traction. The strength of the market to-day was due to a report that the settlement of the Cuban question was at hand, and based on the lines of the Cubans paying an indemnity of \$200,000,000 to the Spanish Government for their freedom, and that the amount would be guaranteed by private capitalists and sanctioned by this Government. Should the negotiations be successful in averting war, the strongest kind of a stock market would prevail. as the settlement rting war, the strongest kind of a st rket would prevall, as the settlem the controversy would at once att

New York Gossip

Kew York Cossip. Henry A. King & Co.'s gossip from New Yerk to day reads: Stocks showed increased activity to-day, and the bull sentiment was decidedly stmu-lated by a revival of reports pointing to a peaceful solution of the Cuban problem. The advance originated in London, which sent higher quotations. Shorts covered, contributing much to the strength of the speculation, but there was buying of an excellent character for the London account. The advance of the decision of the Sen-also increased by the decision of the Sen-ate leaders to take no beligerent action, pending the reply of Spain to the proposi-tions of this Government, and by the solid vote of the Republicans in the House in supporting Reed in suppressing immediate consideration of the Cuban question. The market closed strong, near the best figures. McIntyre & Wardwell's despatch to-day mys: The toding was yet heavy and aggreent
