HOW THE PUBLIC ARE FAKED

Board of Control Throws Its Efforts
In the Way of Heaping Up the
Debtors' Pile.

SOME ASTONISHING LANGUAGE

Was Used by Ald. Woods, Who
Spoke on a Matter of Privilege
—The Mayor Gets Angry.

Perhaps the most astonishing language
ever heard in a deliberative public body,
was the opening number in the program
of entertainment provided by the City
Council for the gallery yesterday. The
parties were Ald. Woods and the Mayor.

The Council was prepared for it, most
of the members knowing that it was coming
up. Had it not been for the remonstrance
of Ald. McMurich and Cox the dialogue
would have passed without a sign of dis-
pleasure.

Having come thru the fire and brim-
stone of the Woods-Macdonald overture,
the Council, with a clear conscience, start-
ed in to write out preliminary notes with
every show of the satisfaction which other
businessmen show when they are
legitimately paying off debts. Debenture
bills were authorized covering nearly
two hundred thousand dollars that should
have gone upon the tax rate of the present
year.

The Debenture Pile.
The report, as it came from the Board of
Control, read: "While the estimates for
the current year were under consideration,
several items of capital expenditures, in-
cluded in the original estimates trans-
mitted to the Committee on Works, the Com-
mittee on Parks and Exhibitions, and the
Committee on Property were eliminated
therefrom by the board, pending further
consideration as to providing the ways and
means therefor."

The Board of Control made an economical
demonstration in the cutting down of esti-
mates, and then threw all its chopping upon
the city's debt, saying that the city was
long schedule of items for the furnishing
of the court, offices and judges' chambers
on the county side of the buildings. The
following is an accurate summary of the
proposed debentures:

City Hall, fitting up offices of court and
other officials, furniture, etc., \$46,190.
This is not definite. The amount to be in-
serted in bylaw will not be fixed until
the committee on works, etc., have been
received.

Committee on Works (items on page 11).

An Honest Offer To Men Only.

To Men Who Suffer From
The Effects of Past Mistakes
—Whose Vitality is Gradually
Wasting—To Those
Particularly Who Have
Drugged in Vain—This is a
Fair Offer.

I have nothing to give free—polydripes
value for nothing—but I want to prove to every honest man who my Electric Belt
is not a humbug, and has cured in thou-
sands of cases this weakening drain upon young men. There have been published
in my book, in the daily papers and by other means over 500000 state-
ments from men who told of their cures of this wasting weakness by my Belt.
Over 50000.

DR. SANDEN'S BELT DOES NOT BURN.

I guarantee my Belts not to burn or blister. All electrodes are covered with a
soft antiseptic material of my own invention and is from a
firm of the highest business and professional standing.

IT IS AN ELECTRIC LIFE-GIVER.

This wonderful Belt of mine pours energy into the weakened parts during the
night, while the patient sleeps, developing the nerves and muscles and restoring
the old vigor, the strength and power of man.

Read the Book "THREE CLASSES OF MEN."

If it were, mailed, by mail. It is full of these grateful letters. Send or call for
it. Free trial of the Belt at the office. Call or direct.

Dr. C. T. Sanden, 140 Yonge St., Toronto, Ont.

Entrance on Temperance St. Office hours: 9 a.m. to 6 p.m.

Gas Stoves for Everwood

We make a specialty of Gas
Stoves. We are wedded to no
particular make—our only bias
is MERIT and value. We
have the largest assortment of
gas cooking appliances in the
Dominion, and whether a 25
cent single burner or our big
\$70 gas range—every stove
carries our unqualified guaran-
tee of satisfaction.

There's no risk in buying
here, and these prices cannot be
equalled for value anywhere:

2-Burner "Toby" Hot Plate, 12x22 inch
top, powerful burners.....\$1.50

2-Burner "Coke" Baker.....\$6.00

2-Burner "Model" Gas Stove, with large
baking and roasting oven and top
broiler.....\$8.00

4-Burner "Dangler" Gas Range, with
double ovens, needle valves, automatic
regulators and all latest improvements
.....\$17.00

Larger sizes, according to equipment,
\$20.00 to.....\$45.00

Call and see them working. Glad
to show them any time.

McDONALD & HOLLISON,
187 Yonge Street.

taken action. Smellie, he said, was
not yet a district clerk, and would not
be a district clerk until the report had
been approved by the Fire and Light
Committee and Council. Regarding the
Ald. Spence in originating the matter be-
fore the Board of Control, Ald. Dunn
made the remark that the highwayman
who meets you on the road and demands
your money or your life does that which is
the act of a manly man in his vocation.
But the coward who follows you up, stays
you in the back and then goes away like
a whipped cur.

Ald. McMurich: Mr. Mayor, I hope
the sort of thing I'll be getting a stop to.
We have had too much of it already.
The Mayor: You might have stopped
the Mayor: I tried to do so.
Ald. Dunn did not proceed further.

Ald. McMurich moved: That, whereas
numerous resolutions have been passed by
the City Council during the past ten years,
with a view to improving the sanitary
conditions of the city, and whereas
numerous reports, at great expense to the
city's taxpayers, have been obtained from
expert engineers, with a view to the disposal
of the city's sewage, and whereas no
decided action has been taken thereon, be
it, therefore, resolved, that this Council
deems it of the utmost importance that
the work of putting down the necessary
trunk sewers and intercepting sewers be
proceeded with forthwith, leaving this ques-
tion of the disposal of sewage to be de-
cided upon later on by the City Engineer;
be it, therefore, resolved, that the City
Engineer be instructed to report to the Coun-
cil forthwith the estimated cost of said
sewage improvement, and that a report be
submitted to the ratepayers at the earliest
possible date for the issuing of debentures
necessary for carrying on of this work.

Ald. McMurich, in presenting the mo-
tion, said he was objecting to secure action
without further delay.

Ald. Lamb regretted that Council had
not sent the Engineer and Health Officer
to Europe for a further report.

Ald. Leslie did not see, in view of the
Health Officer's last report, that the
citizens were suffering from the carrying
of the sewage into the lake.

Refer to Works Committee.
Ald. McMurich accepted the suggestion
of Ald. Spence that the matter be refer-
red to the Works Committee, on the
understanding that action would be taken
at once.

Telephone Poles.
Ald. Graham moved that the erection of
telephone or telegraph poles within the
city limits be not permitted in future
until the consent of the Council has been
obtained.

Ald. Lamb: Better not pass this bill
before they are destroyed by the company.
I support the resolution.

Ald. Sheppard had written a letter to
the Engineer during the Mayor's absence,
and did not feel at all satisfied with the
reply received. He believed the En-
gineer's department was not doing its
duty, and that the company was going far
beyond the powers of its charter.

Ald. Hubbard: The only people we can
blame for it are our own engineers.

Early Closing Bylaw.
Ald. Urquhart moved that the City Soli-
citor be instructed to apply to the court
for a speedy trial of the case in appeal
over the early closing bylaw. Because an
appeal had been taken by the Police Com-
missioners in their wisdom had undertaken
the motion carried. The motion carried.
to abrogate the bylaw.

The Technical School.
D. J. O'Donoghue, an employee of the
Dominion Government, asked the
Council to buy the Technical School grounds for
the purpose of a Technical School. He re-
ferred to an amusing anecdote of a style of
Hon. George Washington Ross.

The Mayor asked him about the circular
letter sent out by the Technical School
Council threatening the afternoon.

Mr. O'Donoghue replied that the members
of the Trades and Labor Council were not
lawyers or clerks.

Robert Gocking, candidate for the cor-
responding position under the Ontario Gov-
ernment, which D. J. O'Donoghue holds
at Ottawa, was the next advocate of the
Athletic Club property.

A Threat to the Council.
Ald. Lamb said Charles Miller and
J. P. McLaughlin were present at the
meeting of the Council, and he moved that they
be expelled. Mr. Miller did not respond, but Mr.
McLaughlin declared that the persons he re-
presented intended to purchase the whole
property, and they would not wait for action
today for the Council to take action.
Ald. Spence then moved that the Council
go into committee of the whole upon the
report of the Board of Control.

The Firemen's Extra Pay.
Ald. Hubbard sustained the action of the
Fire and Light Committee with regard to
the extra pay of John C. Noble, Charles
Smellie and E. W. Brown. The amounts
respectively reported for these men were
\$26.64, \$26.64 and \$26.64.

Ald. Dunn said the Fire and Light Com-
mittee were only waiting for the chief
of police to report on the matter. He
went back to the Fire and Light Committee.
Ald. Sheppard defended the action of the
Board of Control as a compliance with
bylaw. He had not signed the cheques as
acting Mayor, because he thought the mat-
ter should be brought before Council first.

Ald. Spence and Dunn threatened the phas-
es of the subject between themselves over-
again. On a standing vote the recommenda-
tion of the Board of Control was adopted.

Fitting Up the City Hall.
The committee approved the recommenda-
tion of the Board of Control for the issue
of debentures for the fitting up and fur-
nishing of the offices of court and other
officials in the City Hall. The sum recom-
mended is \$35,024. Some changes were

The Slater Commonsense Shape

Of the 12 foot fitting shape in which "The Slater Shoe" is made, the
"Commonsense" is a general favorite.

Obviously a business man's shoe, vary-
ing very little in width from the ball of
foot to toe.

Will be most appreciated by gentlemen
who buy shoes for wear and comfort
first, at the same time this shape is
strictly up to date.

Laced, button and elastic sides. Leath-
ers most reliable and colors most fashion-
able. Every pair Goodyear welled.

Prices \$5.50 and \$5.00 stamped on the
soles in a slate frame—the makers' trade
mark.

Catalogue free.

The Slater Shoe Stores, 89 King St. W. and 123 Yonge St.

The Greatest Labor-Saving Device of the 19th Century

"PERFECTION"

"I always dread the laundry days,"
A tired woman said:
"And if I don't soon get relief
I'm sure that I'll be dead."

Two little girls were puzzled one day
To know what they would do
To iron Dolly's dresses out,
So that they'd look like new.

III. Mamma, however, surprised them:
She'd been the day before
And brought it from the store.

IV. The little "Tots" were delighted.
To know what they would do
To iron Dolly's dresses out,
So that they'd look like new.

V. No more sweating over stoves:
The old way's a thing of the past.
So simple a child can use it.
Relief has come at last.

Steel Bolters.
The contract for steel steam boilers for
the Machinery Hall at the Exhibition
grounds was awarded by the Board of
Control to Goldie & McCullough, Galt,
The Brotherhood of Boltermakers, in a letter
to the Mayor, dated June 1st, 1900, in which
the Boltermakers stated that they were
going to an outside firm.

Ald. Denison and Lamb were in op-
position to the Boltermakers, and the
Council took the opposite side of the
question.

Ald. Saunders defended the idea of Toronto
fencing itself in like China. If they adopted
such a policy they would in time have a
Border Inspection.

After most of the members had their
say, Ald. Lamb's motion that the report
be referred back was lost, and Goldie &
McCullough got the contract.

The Mayor moved in committee the pay-
ment of Judge McCullough's account for the
examination of lunatics. He claimed that
the payment would be robbery, and he
would never assent to the cheque. His motion,
that the accounts be referred back, was
lost on a division.

Athletic Club Again.
When the report of the Committee on
Property dealing with the Technical
School site came up,
Ald. Burns rose and said that they had
reconsidered the recommendation to buy the
entire Athletic Club property. There were
too many complications about the buying of
the whole property and then selling a por-
tion of it, it was thought best to drop the
idea, and to buy only the portion of the
property which was needed for the school.
Ald. Burns moved that the report be
referred back to the Committee on Property.
The motion was carried.

Ald. Lamb moved that the report be
referred back. He said the present Techni-
cal School was a fraud on the working boys
of Toronto. The Athletic Club building
would never be suitable for the purpose
of a Technical School. It was a regular
deal with which a number of men were
connected. They were determined to put
it thru and put it thru that night.

Ald. Saunders is right. If purchased, the
building would be a repetition of the St.
Lawrence Market improvements.

Ald. Lamb's amendment was voted down,
only the mover, with Crane and Saunders,
voting for it.

Ald. Burns proposition was then carried.
The vote was: Ayes—Burns, Leslie, Ste-
wart, Russell, Cox, Bell, Ayles, Foster, Dent,
Woods, Hubbard, Frame, Bowman,
Spence, Sheppard, Nays—Lamb, Crane,
Saunders.

In Council the Mayor asked for the Ayes
and Nays on the payment of the account of
Judge McCullough. There was dissent only:
The Mayor, Ald. Leslie, Hubbard.

Ald. Lamb: A nice try. (Roars.)
There went on record that the purchase
of the Athletic Club property
Crane, Lamb, Saunders, Mayor.

Ald. Hubbard had a division taken on the
purchase of the new Bathurst-street school
site before the Council adjourned.

The Mayor Breaks a Rule.
Mayor MacDonald has more than once
called members of the Council to order for
confering with citizens sitting outside the
hall. He himself had a consultation with
the rail yesterday with Charlie Miller while
the committee was busily engaged.

Dodge Company Protest.
J. A. McMurly, in behalf of the Dodge
Telephone Company, protests against the
renewal of the agreement with the Bell
Telephone Company for the exclusive
right to operate a system in the city. The
round he takes is that the Dodge people
will cheer be in a position to propose a
cheaper system to the city.

DEATH FOLLOWED AMPUTATION.
Mr. Louis Gravelle, Aged 70, the
Victim—A Change in the Bi-
leam Team.

Kingston, June 11.—Louis Gravelle, aged
70 years, is dead, following amputation of
his right leg. Last winter he fractured
an ankle. In the hospital the bone was
set and the wound healed, but gangrene
followed, and in trying to save his life the
amputation was undertaken. The only re-
lative known of deceased is a brother, a
lawyer in Montreal.

Sergeant W. Swaine, 14th P.W.O. Rifles,
has been obliged, on account of pressure
of business, to resign his position on the
Canadian rifle team, which will sail for
Bisley in the course of a few days.

The Slater Commonsense Shape
