The Toronto Daily Star Will Have a More Complete List

T. EATON CO. LIMITED 190 YONGE ST., TORONTO.

THE ENTRANCE EXAMINATIONS. Dr. Ferguson Wants to Know What is the Matter With Toronto. The World has received from Dr. Ferguson a letter in reference to the High School entrance examinations in Toronto, Hamilton, London, Ottawa and Kingston. The doctor shows that 55 per cent. passed, while in Hamilton 74 per cent., in Ottawa 81 per cent. and in Kingston 84 per cent. were successful. The question is asked: Are our pupils badly prepared, or are the examinations too severe, or are the examiners for the other cities named too lenient, the papers being the same for all over the province?

THE TORONTO WORLD

Monday World, \$3 per year. Daily World, 10c a copy. Toronto, Ont., Aug. 12, 1901. Private branch exchange, connecting all departments. Hamilton office, 19 West King street. Telephone 2417. Mr. J. Sayers, Agent. London, England, office, F. W. Large, Agent, 143 Fleet street, London, E.C.

TOPICS OF THE DAY.

The observation can, after a short season in Quebec, have been banished, owing to the strenuous opposition of the backmen and literary owners. An Irish-Canadian in Quebec tangled a French-Canadian fellow-citizen all up by challenging him to pronounce this sentence: "Thimberg Tustawite thier-ly thought to thimble about, but as was thwarted and thwacked and thumped and thrashed with thirty-three thousand thistles and thorns for thierly thinking thierly thive thru thick and thin by throwing thier thistles about."

MR. DRYDEN'S DEFENDERS.

Taking their cue from The Weekly Sun and The Globe's half-hearted endorsement thereof, a number of Liberal papers are now coming to the defence of Mr. John Dryden in his Dakota ranch enterprise. The Galt Reformers quote The Sun's remarks approvingly, and The Lincoln Post agrees with the view that "a minister of the Crown who claims that 'a minister of the Crown' should not be engaged in such speculations as these are in his own interests, and so long as these investments are legitimate, it is not an affair of the public generally where they are placed."

CORN DOCTOR TO SIR WILFRID.

Our distinguished young fellow-countryman, H. H. Bourassa, who sits in the Ottawa House of Commons for the County of Labelle, in the Province of Quebec, is spending the summer in Europe. But he is not holidaying. He is an active politician, a student of politics, and is lecturing public men in Europe and being invited to give lectures in the various countries he is visiting. Mr. Bourassa is ambitious, hard-working, of engaging manners, well posted.

SYMPATHY TO STRIKERS.

Birmingham, Ala., Aug. 12.—The 47th annual convention of the International Typographical Union met in this city today. President James M. Lynch of Syracuse was the guest of honor. The convention was opened by the reading of a resolution adopted by the delegates of New York offering a vote of sympathy to the strikers in the United States and the sympathy of the union in the event of a strike in the United States.

NEW HOPE FOR PALESTINE.

Old Palestine is said to be on the eve of an industrial revival. Ages ago, this was the greatest country of the world, the seat of the prophets, the scene of the life of Jesus Christ, whose words on earth were spent in that land, and whose death on the cross and resurrection from the dead were made the basis of the Christian religion. Palestine has for a number of years been an object of great interest to Christians, and many a clergyman has journeyed to the Holy Land with the special object of seeing the tomb of the Saviour and gaining knowledge and inspiration which will be of benefit in their ministrations. In this and other ways Palestine has been kept foremost in the mind of Christendom. Particularly in Sunday schools has that land been portrayed in map and drawing, so that almost any youngster in this or any other Christian country can tell about Solomon's temple and the cedars of Lebanon, and the Pool of Siloam, and the Dead Sea, and the River Jordan, and so on.

GRANDPA.

Everybody's proud of this sort of Grandpa, and he's proud of himself; proud of his clear brain and active body. There are other kinds of grandpas, but these we can't be proud of. Weak of body and feeble of mind, we can only pity them. They do more harm than good. Only what makes the difference between these two classes of old men? A sound stomach and a plentiful supply of pure, rich blood. Dr. Pierce's Golden Medical Discovery strengthens the stomach, purifies the blood, and increases the activity of the blood-making glands. It won't make old men young, but it will enable old men to maintain the force, the cut, and so strengthen them for a life of reasonable exertion.

MILL BURNED.

Batters, Ont., Aug. 12.—On Saturday night the large roller mill here, belonging to G. S. Wakeford, was completely destroyed by fire. The mill was comparatively new, and was fitted with modern machinery, and cost not less than \$10,000. The mill was situated on the banks of the river, and was a great asset to the community. The fire was caused by a short circuit in the machinery, and the mill was completely destroyed. The loss is estimated at \$10,000.

GRANDPA.

Everybody's proud of this sort of Grandpa, and he's proud of himself; proud of his clear brain and active body. There are other kinds of grandpas, but these we can't be proud of. Weak of body and feeble of mind, we can only pity them. They do more harm than good. Only what makes the difference between these two classes of old men? MONEY FOR DIKE'S VISIT

The chairman of the committee, Walter Board of Control Votes Two Thousand Dollars for Entertainment of Their Highnesses. The appropriation of \$2000 for the entertainment of the royal party will be placed at the disposal of the Reception Committee at once. Aid was accorded with thanks. The chairman of the committee, Walter Board of Control, has asked for some money to go on with.

TORONTO CLEANER THAN BROOKLYN

Manager Keating Suggests Twentieth Century Life Guard as Suitable Car Fender. Two thousand dollars of the \$10,000 appropriation for the entertainment of the royal party will be placed at the disposal of the Reception Committee at once. Aid was accorded with thanks. The chairman of the committee, Walter Board of Control, has asked for some money to go on with.

EXTENSIONS OF CAR TRACKS.

The City Engineer will confer again with the Street Commissioners regarding extension of tracks. Manager Keating pointed out the city that the company was prepared to go on with the extension of the tracks. The City Engineer will confer again with the Street Commissioners regarding extension of tracks. Manager Keating pointed out the city that the company was prepared to go on with the extension of the tracks.

BYLAW ALTERS HIS CALCULATIONS.

Before the 10c wages bylaw was passed the Street Commissioners had a contract for work on William Street. As the bylaw was passed, the contract was voided. The Street Commissioners are now looking for a new contract. The City Engineer will confer again with the Street Commissioners regarding extension of tracks.

IF IT DOES STEEL CAN BE IMPORTED

From England and Belgium or Non-Striking Mills. "Will the steel strike affect Canadian industries?" was the question put by The World yesterday to several gentlemen connected with the iron industry in Toronto. The consensus of opinion was that any work now under way or contemplated would not be hampered by the tying-up of many of the mills of the United States and Steel Corporation, for several reasons: Local iron have an ample supply for present or future needs; other mills not affected by the strike will keep busy turning out material to supply the increased demand; and even if the required steel cannot be obtained in the States, there is still the English market open, where it can be obtained.

ZOOLOGICAL CONGRESS OPENS.

American Status of Scientific Nomenclature. Berlin, Aug. 12.—American ideas of scientific nomenclature arrayed against those of Germany and France will provide the spectacular feature of the International Zoological Congress, which opened here tonight. The Zoological Congress, headed by Dr. Charles Stiles, of the Department of Agriculture, and Leonard Steadman, curator of the National Museum at Washington, will fight for the adoption of a system based on modern requirements. The congress will discuss the nomenclature of animals, and will be a great success.

GRAIN MOVEMENT HEAVY.

Vessels Bringing Large Cargoes From Chicago to Owen Sound. Owen Sound, Aug. 12.—(Special.)—The grain movement from Chicago and Port William to the Georgian Bay promises to be very heavy this fall. The rate from Chicago is 12c per bushel, the freight and wharfage charged at this rate for 110,000 bushels of wheat for Parry Sound. The Canada Atlantic will have several outside boats carrying grain to Owen Sound. The rate from Chicago is 12c per bushel, the freight and wharfage charged at this rate for 110,000 bushels of wheat for Parry Sound.
